

Mayor Informs Council Last Night of Decision—No Money for Side walks or Other Improvements—Petitions Adopted Asking for Inquiry into High Prices—Registration of Owners of Bicycles—Early Closing Bylaw for Music Dealers.

"I don't think that there will be any money to spend on plank walks and other improvements this year, so it will be useless to advertise them," said Mayor Henry last night, when there came up for consideration the proposition of improving the local dairy produce and fruit trades; the council is of the opinion, however, that it is the duty of the government, either Dominion or provincial, to investigate this condition, rather than the municipality, and prays that you institute an inquiry."

This petition is to be forwarded to the Hon. T. W. Crothers in answer to a communication from him to council on the high cost of living."

This was considered by the safety and health committee, who recommended that this reply should be made and council unanimously agreed.

Registration of Bicycles

Dealing with the communication from the state to the city regarding regulations to be made for establishing safety zones, appointing car conductors and other matters, the city commissioners for traffic suggested an approach committee coincided with the advice of the safety and health committee that no action be taken on these matters and no action was taken.

In regard to the request for a "slow" and "danger" zone could be authorized, the commissioners

Approve Assessment
On the application of City Assessor Walker, council formally confirmed the assessment roll for 1917, subject to the decisions of the court of revision and the court of appeal.

Assessor Walker reported that the total valuation of the city was \$112,523,399, the net municipal assessment was \$109,308,760, the public utility assessment \$293,900 and the separate school assessment \$1,234,059.

In dealing with this matter of assessments, a letter was received from the city solicitor, also, in which he stated that the traffic laws of the city compelled to register, the cost of such registration to be \$1, which shall include the furnishing of a number plate or tag to be carried in a prominent position; also that the rider shall be subject to the conditions governing other street traffic, and that the city solicitor be instructed to

There was a report from the safety and health committee that nothing had been done in the way of amending the pound bylaw in order to further control the handling of cattle on private premises.

Ald. Bellamy was informed that he should consult his solicitor.

Ald. Grant added: "I don't want to

It was pointed out that Ald. Bellamy

had the right to request the information privately from the city solicitor in his capacity as an attorney.

Combine Exists

"That in the opinion of this council there is reason to believe that a combine or understanding exists among several of the dealers in the necessities of life, particularly the meat,

Ald. Wilson said that the case was one wherein some protection should be given, yet it was thought that an amendment brought in would have to apply all over the city, and in consequence would inflict hardship on

Battle River Valley; Its Bright Future

A member of the Bulletin staff paid a visit last week to the district and investigated the rapid growth and the prospect of development in the future. The result of his observations and inquiries appear on Pages 10, 11,

MURDERER OF

CONSTABLE HAS GOT CLEAN OFF

Only Clue To Perpetrator Of
Crime Bag Found At
Place

(By Morning Bulletin Leased Wire)
CALGARY, Alta., July 3.—The coronor's inquest on the body of Police Constable Arthur Duncan, who was killed by a bullet fired from a car behind the Revelstoke Lumber Company's office, was held tonight. While the coroner was making the district heard the shots, no one seems to have undertaken an investigation, nor did the police appear to be troubled by anyone. Nothing new developed during the proceedings.

On the morning of the discovery of the body a brown traveling bag was found lying on the ground nearby, and it appears to have borne some articles of oil-stained hardware for the use of a soldier. The bag was very greasy. It is possible that the man traveled in a motor car, for the police officers who were first to find him to leave the vicinity shortly afterwards, and it was noted that it bore the marks of a motor car.

... report is to the effect that a man in some kind of a uniform was seen proceeding north from the scene of the crime just after the sound of the shots had been heard, but whether this man had anything to do with the shooting is not certain. Evidence was given that he paid no attention to

S. A. BRIGADIER DEAD

SUMMER SCHOOL ENROLMENT HAS BEGUN

Expected That 350 Teachers Will Attend The Course At The University.

Enrollment of students for the fifth session of the summer school for teachers at the University of Alberta commenced yesterday and will probably be completed today. It is expected that about 350 students will attend the course.

The services of a staff of thirty specialists have been secured for the session. The majority of these are as highly qualified in their particular field as can be secured in the province. The department has drawn from the university, the normal schools, high schools and from the departments of education and agriculture for this purpose.

The courses in agriculture, gardening and nature study are those most favored by the students. The courses in art and household arts have a good enrolment.

Students will have in addition advanced courses in physical training, manual arts, folk dancing, home nursing and first aid. It is considered to be a special advantage to teachers in rural and village schools to have a knowledge of the two latter subjects and to be able to teach their senior pupils how to act in cases of emergency.

This year for the first time arrangements have been made to offer the full physical instruction course and a goodly number of teachers are taking advantage of this opportunity.

At the beginning of the third week two special courses will be started for those teachers who are at present engaged in teaching and marking papers of the pupils writing on the mid-summer examinations. The majority of these teachers are responsible for the work of the senior grades in the elementary and the junior grades in the high schools. They are this year to be given the opportunity of supplementing their training in elementary science and agriculture or in cadet instruction, according to choice. Already a considerable number have signified their intention to avail themselves of this, and no doubt a good attendance of these teachers will be secured.

Thursday evening of this week the staff of the summer school will be at home to the students and their parents. Hon. J. H. Boyle, minister of education, and Mrs. Boyle will be the guests of honor on the occasion, and as there are at present over 500 teachers in the city, a large attendance is expected at the function.

COLORED PEOPLE FORM A SOCIETY

New Organization Will Include Branches All Over the Province

A society was formed by the colored people of Edmonton Monday night, and is intended to be one of the permanent organizations of the city. The purpose of the society, as set forth by its registered papers, is to promote friendship, fellowship and social intercourse, and the education and general improvement of the members and, in a general way to improve the standing of the colored race.

The society starts off with 80 charter members, including the great majority of the colored residents of this city and province. The officers elected are: President, Archbishop Washington; Vice-president, Frederick Dickson; Secretary, Ralph N. Winn; Treasurer, G. W. Smith.

The society starts off with 80 charter members, including the great majority of the colored residents of this city and province. The officers elected are: President, Archbishop Washington; Vice-president, Frederick Dickson; Secretary, Ralph N. Winn; Treasurer, G. W. Smith.

POLICE COURT

Magistrate Barclay, in the police court Tuesday afternoon reserved judgment until next Friday on the charges of false pretences against J. J. Burns, F. Schwabbe, Jack Connell and Wm. B. Channell.

During the afternoon, Hon. A. G. MacKay, counsel for Channell, addressed the court with the object of disqualifying complainant's evidence. He drew the court's attention to the fact that the day following the issuing of the criminal proceedings, Rogers in the civil suit between Bodner and Channell, Schwabbe and Henry Rinechew were drawn up. In these two cases, he stated that the defendants were not the same people.

Magistrate Barclay also reserved judgment on the charge of a breach of the liquor act against Eugene Van Vleet of the Pendennis hotel.

FURTHER CREDITS FROM U. S.
WASHINGTON, D. C., July 3.—Lord Northcliffe, head of the British war mission in the United States, called on Secretary McAdoo today and discussed further credits for Great Britain. He was accompanied by Sir Richard Crawford, commercial adviser to the British embassy.

GILBERT WHIPS ALL COMERS AT CALGARY FAIR

Wins The Grand Championship With His Shropshire Yearling Ram.

Eleven championships, ten reserve championships and twenty-one firsts, besides some seconds, thirds and fourths were won at Calgary exhibition by William Gilbert of Stony Plain. He had also the honor of winning the grand championship for his Shropshire yearling ram against competition of champions of eastern Canada and the United States. He also won first in all Shropshire ram classes.

This is another evidence of the high class of purebred stock to be found in the Edmonton district.

CONVALESCENTS REFERRED TO.
The Bulletin yesterday, in its report of the military parade, referred to Captain Plinder's hospital command, which was in line, as "invalids." As everyone knows, the soldiers at the home, who were thus designated, are convalescents, men who are recovering from wounds or illness incurred on active service. In using the term "invalids," the Bulletin, of course, had not the slightest intention of speaking in a derogatory or slighting way of the veterans from the home who turned out for the Dominion Day celebration.

CO-OPERATION IN MARKETING EGG PRODUCT

Attractive And Instructive Exhibit At Edmonton Fair By Federal Government.

The egg exhibit now on its way to the Edmonton exhibition, prepared by the livestock branch of the Dominion department of agriculture, under the supervision of the poultry division, promises to be one of the most interesting displays of its kind that has been seen here.

Co-operation in marketing is the main feature, illustrated on large panels. Egypt, Denmark and Prince Edward Island forming the subjects for the illustrations. Egypt is given as one of the earliest advocates of "co-operation," a system of marketing that is ideal. Denmark, one of the smallest countries in Europe, but one of the most successful in marketing the products resulting from her intensive farming operations, is illustrated as a typically co-operative country, so much so, in fact, that she may be rightly called the "home of co-operation."

The large panel devoted to Prince Edward Island shows by small white electric lights, each of which marks the location of an egg circle, how well the island has organized co-operation, actively through the efforts of the Dominion department of agriculture consequent upon the live stock branch, working in conjunction with the provincial department.

The results of this co-operation on the part of producers is illustrated in the exhibit and all interested in poultry production and marketing would do well to make a perusal of it, and obtain further information and assistance from the officers in charge.

Electrically lighted models illustrate the system followed in collecting eggs in the country districts, delivering them to the local station, shipping to the central candling station and from there to the dock for transportation by water to the large markets.

The standards for Canadian eggs, "Specials," "Extras," "No. 1's" and "No. 2's," are illustrated by electrical illuminations in the front of the exhibit.

The annual display of these exhibits is a part of the progressive agricultural policy instituted and encouraged by the Dominion minister of agriculture, the Hon. Martin Burrell.

MAJOR FANE NOW INSPECTOR IN WEST

He Will Look After Pension Work For Four Western Provinces

Major Fane of the Pensions Office is in Winnipeg at present, installing a complete new office staff of the pension office in the city. The work had previously been performed in conjunction with the Patriotic Fund, but owing to the heavy increase of work, this arrangement became undesirable, hence Major Fane is making, on July 2nd, he opened a new office at Saskatoon.

For the purpose of facilitating pension work, Major Fane has been appointed pension commissioner, with jurisdiction in the four Western Provinces. He will continue to have his home office in charge of the Edmonton office his immediate personal attention, and will return soon.

The Major is doing this work on his way back from Ottawa, where he has been collaborating with the commissioners and heads of departments, in suggested alterations to be recommended to the parliamentary committee in charge of the Pension Act, with a view to improvement in the regulations and schedule, such changes to be retroactive and tending to benefit all pensioners. The chairman, J. K. L. Ross, will personally present the recommendations to the committee, as soon as it sits, and will ask to have it at once pass the matter to parliament for approval.

Military Orders

REGIMENTAL ORDERS OF THE 101ST REGIMENT.

Regimental order by Lieut.-Col. F. A. Osborne, O.C. 101st Regiment E.F. The battalion will parade at the armories on Friday, July 6th, 1917, at 7.55 p.m. sharp. The South Side company will parade at the South Side Ring, as usual.

The South Side company intend holding a dance on Wednesday, July 4th, 1917, and cordially invite all members of the 101st Regiment E.F. to attend. The officer commanding has been pleased to grant the permission to all attending the dance to wear their work uniforms without side arms. Dance at 8 p.m.

G. S. HENSLEY, Captain and Adjutant.

CHAMPION HEREFORDS DEFEATED

Frank Collicott's \$11,500 Imported "Gay Lad" Lost At Calgary.

(By Morning Bulletin Leased Wire)
CALGARY, Alta., July 3.—Two international championship Hereford bulls were defeated in the livestock competitions at the fair, when Frank Collicott's \$11,500 yearling "Gay Lad," junior champion of America, and George Fuller's \$17,000 "Martin Fairfax" of Gilvan, Sask., were beaten. The championships for Herefords went to the Courtney Cattle Company, of Indus, near Calgary, with stock recently imported from Kentucky. "Beau Perfection" was the senior and grand champion, with L. O. Clifford's Lord Fairfax 5th, the junior, with Beau Demand of Courtney Cattle company as reserve.

In Holsteins (dairy cattle), Joseph Laycock won both senior, junior and grand championships, and in Ayrshires, Rowland Nees won the senior and grand championship, and W. J. Morison, the junior championship, with "Storm King."

J. D. McGregor, of Brandon, led in the junior and grand championships in Ayrshires, with James Bowman, of Ontario, winning the senior championship.

The Jean de Luth farm won prizes for Red Polls and Guernseys. J. J. Rowland Nees for senior and junior herds of Ayrshires; J. H. Laycock and George Bevington first and second for Holsteins; grade dairy cattle honors went to Richard Atkins for champion grade and reserve.

The majority of prizes for ponies went to Mrs. Vanderhoof for the champion and Norman Stonky for reserve. Champion saddle pony was won by L. C. Chambers' Young Buck. In carriage horses, A. J. Carr took honors; James Young won in the heavy draught mares class and the Pacific Cattle Company took the reserve ribbon.

AUTO CLUB TO ARRANGE PARADE

Special Meeting Today To Discuss Details Of Exhibition Parade.

An important meeting of the Edmonton Automobile Club will be held at noon today at the Macdonald hotel, the principal business being that of completing arrangements for the parade which will take place during the exhibition on Friday, July 4th.

Some other important matters will be up for discussion and a full attendance of members is desired. Since the last meeting of the club there has been a gratifying increase in the membership. Chairman Connolly of the membership committee has had his committee round up a number of desirable men, who have shown their appreciation of the work of the club in a practical way by becoming members.

MAY BE CHANGE ROUND OF TEACHERS

School Management Committee Discusses Subject—Superintendent Is In Favor.

For the benefit of the scholars and schools generally, the question whether or it would not be a wise plan to change round some of the school principals, was discussed by the school management committee on Tuesday afternoon.

The question was raised by certain of the trustees, owing to complaints which have been received and investigated. On being questioned, Superintendent of Schools Carpenter said that a transfer of principals would not be inadvisable, as it would intimate to them the necessity of changing their methods of management.

In these men whose names came before the committee, Trustee Rae asked if they were married. Superintendent Carpenter said that they were not in answer to further questions. Supt. Carpenter said that he could not say whether they had tried to enlist or not. He supplied their ages, which showed that they were all young men.

The committee also considered the question of teachers, whose work was not entirely satisfactory. A list of the teachers was supplied by Superintendent Carpenter, also a report on their work.

Both of these questions, owing to their importance, were eventually left over for further consideration at another meeting of the committee which will be held towards the end of the present week.

Parker, principal of North Delta school, was re-appointed for another year, salary to be on fourth year scale.

AUDITORS SAY ACCOUNTS O. K.

Messrs. Kinnaird and Henderson Submit Their Report of Quarterly Audit

"Having completed the independent audit of the city's books and accounts for the quarter to March 31st, 1917, we now report that the same are in good order and the transactions of the city correctly recorded therein to that date."

This is the statement of the city auditors, Messrs. Kinnaird and Henderson, in reporting to council.

The auditors also state that they have checked the accounting of the city conducted by the comptroller's department and found it accurate. Also the auditing of the treasury returns had been completed to March 31st and found in order, together with the sinking fund books.

TAX BILL REPORTED

WASHINGTON, D. C., July 2.—Providing increase in taxes for war purposes of \$1,570,170,000, or about \$100,000,000 less than the house authorized, the war tax bill as revised by the senate finance committee after six weeks' work was reported today to the senate by Chairman Simmons. It will be taken up after the food control measure is passed.

VISITORS BY AUTO MAY PITCH TENTS IN EAST END PARK

Exhibition Association Has a Scheme Similar to That of Iowa State Fair

Automobiles promise to play an important part in the exhibition of the Edmonton Exhibition, July 3rd to 10th. The Edmonton Automobile Club is co-operating with similar clubs in outside towns, to have a good showing at the fair. The increased number of cars throughout the country generally will be a strong factor in the transportation scheme, farmers and residents of adjacent towns finding this method of bringing their families to the city much more convenient than any other. Popularity of automobiles with fairs, and fairs with automobile owners has been demonstrated at the Iowa State Fair, where a section of the grounds is reserved from year to year for the use of automobilists, who motor to the city for the big event of the year, and camp until the close of the fair. A similar possibility is being considered in Edmonton, and the East End park adjacent to the Exhibition grounds proper, will afford an ideal camping ground when the demand justifies the project.

Great interest is being exhibited in the automobile races which will be a feature of the Edmonton Exhibition on Friday and Saturday, July 13th and 14th, and the parade of the Edmonton Automobile Club on Friday promises to excel anything of that nature ever seen in the city.

HEARS THAT SON HAS BEEN KILLED IN PALESTINE

Mrs. Cherry, of 10142 90th street, has received word that her eldest son, Sidney, was killed in action on May 13th, in Palestine.

DROWNING OF TWO FORMER CITY GIRLS

Loss Lives While Bathing In The Pembina River Near Rossington.

While bathing in the Pembina river, six miles above Rossington, on Dominion Day, Miss Gladys Elbridge and Miss Marion Connor were drowned. No one saw the accident and their bodies have not yet been recovered. Though search parties have been looking for them along the river at Rossington and a lookout will also be kept at the E.D. & B.C. crossing of the Pembina river.

Miss Gladys Elbridge was seventeen years old and the only daughter of E. Elbridge, a farmer at Rossington, and had been in the city up to a short time ago.

Miss Marion Connor was about 2 years old and had been teaching in the Dusseldorf school since New Year's. She had been in the city for some time. She boarded at the home of 8 Leslie 10729 95th street, and had been a special student at Alberta College. She was a very popular girl.

Miss Connor had also been previous employed at Ramsey's and with the Bapco Paint Co. As far as known she was a relative in the city and he home is understood to be in Peterboro, Ont. It is also reported she had a brother somewhere in Alberta.

To details of the accident are available, but it is supposed that the two young ladies got beyond their depth in the current of the river and there was no one near to aid them. Both girls were popular in the community and there is general grief prevailing as a result of the double drowning.

HOTEL ARRIVALS

Hotel Skirke.
W. A. Clement, Toronto; T. H. Stimmel, city; Mr. and Mrs. J. R. Gilchrist, Waskatoon; Mr. and Mrs. A. E. Wynn, Waskatoon; Mr. and Mrs. J. W. Russell, Calgary; P. Gordon, Red Deer; Henry Shunko, Mundare; Samuel Hisey, Toronto; S. E. Forman, Vegreville; E. J. Davis, Calgary; Mr. and Mrs. J. H. Hays, Calgary; Mr. Huddah E. Peterson, Seattle, Wash.; A. B. Boyd, Edmonton; C. Smith, city; R. Craig, Chauvin; E. J. Kibblewhite, Jr., Vermilion.

Royal George Hotel.

Wheatley and wife, Westlock.

DANCING AT THE BEACH

One of the principal features of entertainment at the Commercial Terrace, which was the dancing pavilion which was filled to its capacity at intervals during the day, and the inspiring music of Barker's orchestra, with its new "Jazz" dancing selections, maintained the thousands to their entire satisfaction. No doubt during the Wednesday and Saturday excursions, to commence Saturday, July 7, and continue during July and August, the pavilion will be equally well patronized.

PRESENTATION

A pleasing function was performed last night at the Phoenix Cafe, when C. W. Coppock, on behalf of a few friends, presented D. D. Ferguson, of the firm of W. J. Mackenzie & Co., Ltd., with a Saskatchewan gold pin and suitable inscription. Mr. Ferguson left last evening for Winnipeg and will carry away with him the good wishes of many friends made during his sojourn in this city. An admirable work was served, the toast list consisting of "The King," "Our Boys at the Front," "Our Departing Guest" and "Our Host."

BOARD WARNS CITY AGAINST BORROWING

Utilities' Commission Advises Tax Sale Be Held Early In 1918.

"The Board of course cannot be indifferent to the fact that the city has been greatly handicapped by the present unsatisfactory tax collection procedure and this fact has weighed very heavily with the Board in its present decision. Such authority as it may give will be granted on the distinct understanding that every effort will be made to have the anomalous condition of affairs remedied at the earliest possible date, and that a tax sale to embrace all properties in arrears up to December 31, 1916, will be held as early as possible in 1918."

The above is the main recommendation of the Utilities Commission, giving the city permission to borrow the sum of \$1,200,000 against the arrears of taxes for 1916, which amount to \$1,665,322.

Allying to this suggested sale the communication from the Commission goes on: "The Board recommends that this fact be made a matter of widespread knowledge, so that it may induce taxpayers to voluntarily respond to the situation forthwith."

The Commission Board states that "it does not consider that its responsibility extends to dictating the policy of the city in borrowing money, the present admittedly grave crisis. It is concerned more particularly with being satisfied that borrowings effected under its authority shall be properly applied."

The city is warned that "without a change of conditions, reliance upon further borrowings on tax arrears, under the authority of the Board of Utilities Commissioners must not be looked for."

REINFORCEMENTS ARE WANTED TO HELP ON TRENCHES

Work In Constructing Emplacements And Dugouts Carrying On At Fair Grounds.

Still further progress was made last night in constructing trenches at the exhibition grounds, where, under the auspices of the Invalid Soldiers' Welfare League, demonstrations of the methods of trench fighting in modern warfare will be given. The machine gun emplacements were started, a dugout has been started and work on constructing the barb-wire entanglements and the surrounding fence begun.

Men of the 19th Alberta Dragoons and the 101st Regiment lent a helping hand and their efforts are appreciated. The work will be carried on nightly and in passing, meanwhile, reinforcements are needed for the pick and shovel work and every military man who is "fit" is invited to assist.

PLANS WELL ADVANCED FOR UNION GOVT.

Montreal Star Says Number Of Liberals Are Prepared To Accept Office.

(By Morning Bulletin Leased Wire)
MONTREAL, July 2.—The Montreal Star, in its following special despatch from its Ottawa correspondent: "It is understood that plans are well advanced for the contemplated re-organization of the Dominion cabinet along the lines of union government. Sir Robert Borden has been dealing with the matter and there is reason to believe that a number of Liberals are prepared to accept portfolios in the new government."

"The new cabinet re-organization will in all probability include a direct representative of labor and of western grain growers."

"The situation seems to be that the premier knows those he can get. It is for him to decide whom he wants and when their services should be availed of. Whether they will be from the Liberals in the house admits of some doubt. Some of these are likely to be included, but if tentative plans be given effect to, the most of the cabinet will be secured from outside parliament."

"It is improbable there will be any conclusive action until after the division on the second reading of the compulsory service bill. After that developments are looked for. The decision rests in the hands of the premier, who has not yet indicated upon whom he may call, or just at what stage it will be done."

"A new member of the cabinet, drawn from the ranks of the Liberal party will, of course, be representative of that large element of the party which favors conscription and will be subscribed to a policy of prosecution. Canadian participation in the war without reference to politics or political considerations."

"Any change in the ministry will exercise some effect on the general situation. When coalition with the Liberals in an official sense was planned, one of the features of the proposition was an appeal to the country prior to the enforcement of conscription. It seems very probable that if a union or fusion is now effected, the same course may be followed, and the people consulted with reference to it."

"Should this be done, then the session would be appreciably shortened. In any event, something is under way and likely to come to a head almost any time."

FOUR RETURNED SOLDIERS ARE WELCOMED HOME

Detrain At South Side And Are Brought Across The River In Automobiles.

Four returned soldiers arrived in Edmonton yesterday and received the customary hearty welcome. Secretary Rheinhardt of the Great War Veterans' Club, were notified that the men were coming and that they would be met and there was no time to make any public announcement. By dint of considerable hustling a sufficient number of bandmen were got together to make a reception committee from the club, headed by Secretary Rheinhardt and Lieut.-Col. Macdonald of the Women's Volunteer Reserve met the boys at the station. One of them, Pie Reid, got off at the South Side, but the remaining three were carried in the waiting automobiles to the club rooms and made much of. The returned men were:

Corp. R. A. Reid, 10631 50th ave., Edmonton, 51st battalion.

A. E. Smith, 10338 164th street, Edmonton, 19th battalion.

Corp. D. Young, Athabasca Landing, 51st battalion.

Pie J. H. Reid, Chipman P. O., Alta., 49th battalion.

Letters were supplied by Wm. Lester, W. J. Saunders and W. E. Werner.

PEACE RIVER FARMERS SELL NINETY HOGS

Fourteen Residents Of Griffin Creek Net \$2,030 By Sale.

Another example of successful co-operative marketing of live stock at the Edmonton Stockyards is the shipment of 90 hogs from fourteen members of the local U.F.A. at Griffin Creek in the Peace River country. The shipment was bought by Carson, Wood and Weiler for the William Davis Co., Toronto, and sold through the live stock department of the Alberta Farmers' Co-operative Elevator Co., Ltd. The expenses of the shipment were high owing to the long haul but the net proceeds were \$2,030.90. They were sold on a fed and watered basis and gained 47 pounds on the carload over their weight at Peace River, which was good considering their long journey from home farm to the stock yards market.

While being hauled in the coolness of the night 32 miles in wagons to the Peace River station on the E.D. & B.C. one of the wagons belonging to Fred Oberg upset over a 20-foot embankment. The box broke and the hogs got loose. One hog was drowned and the rest of the cargo was scattered. The live hogs were proceeding at a lively chase over the moonlit prairie were finally rounded up at the corral of the Catholic mission. They then were reloaded in the repaired wagon and resumed their journey to market.

The carload of hogs were shipped from Peace River Wednesday night and arrived at the Dunvegan yards at 8 p.m. Friday night. The following day the hogs were shipped to the Edmonton stockyards at 4.30 on Saturday morning. This is the second shipment of live stock from the Griffin Creek U.F.A. which now has a thriving membership of about 50 local farmers.

The fourteen owners of this co-operative carload shipment were: J. T. Moffat, E. Dixon, F. Oberg, A. R. Vine, Jacob Messner, C. Swensh, Salmund Bros., W. B. Vaughn, A. Grant, C. Hanson, W. Evans, W. Lampey, Harold Harris and H. Lens.

LITTLE TOO MUCH OF "QUEBECERS"

Nap. Garceau Criticizes French-Canadians In Anti-Conscription Speech.

(By Morning Bulletin Leased Wire)
DRUMMONDVILLE, Que., July 3.—Nap Garceau, Drummondville, addressed an audience of about 1,000 people here last night in denunciation of conscription, but took a new departure in a blunt criticism of the people of his own race in this province.

"We have not been taught all that could have been taught us," he said, "and that our country was not the province of Quebec only, but the whole of Canada. In the past we have been in the habit of living isolated, and not mixing with others. We have been little more than a 'Quebec' and on this fiftieth anniversary of confederation it is for us to take a lesson to remember that we are Canadians, home in Quebec or in Ontario, as much as those in Toronto, and as the people of Toronto are at home here."

FRENCH HONOR JUBILEE
PARIS, July 3.—(Via Reuters Agency).—A special service to commemorate the jubilee of Canadian confederation was held in the Madeleine cathedral. Cardinal Amet, prefect and representatives of President Poincaré and the French government were present, also Lord Bertie, the British ambassador and a number of Canadian officers and men and civil and military notables.

INCREASED EARNINGS
WASHINGTON, July 3.—May reports to the interstate commerce commission from 72 of the 186 principal railroads of the country show an increase in earnings over May, 1916. The net earnings of May this year were \$48,134,748; last year, \$46,981,930. Western roads made a gain of more than \$3,000,000, although both eastern and southern roads suffered slight decreases.

AMERICANS TRAINING

PARIS, July 3.—The American troops now at a French port will begin to go to training camps for instructions behind the lines by the end of this week, it was announced this morning. The first contingent may start thence after the Fourth of July celebration.

BREWERY WORKERS' STRIKE

FERNIE, B. C., July 3.—Another strike went into effect here this morning, when the employees of the Fernie, Port Steele Brewing Company suspended work upon failure of the company to accede to their demand for fifteen per cent. increase in wages. Negotiations have been in progress lately, but so far no agreement has been reached. The employees of the Elk Valley Brewery at Michel also ceased work today. The employees of both plants are members of the International Brewery Workers' union in all, some fifty men are affected.

URGES LONGER TIME GIVEN FOR REGISTRATION

City Solicitor Suggests Central Offices Be Kept Open Until Middle July.

"I would suggest that the central offices be kept open until, say, the middle of July, and that every facility be given to electors to notify the assessor of omissions of their names. This would, however, need the attendance of the person whose name is omitted at the court of revision, as section 50 requires that the applicant shall appear in person."

The above is the recommendation of City Solicitor Bown, who, at the last meeting of council, was asked to make a report on the question whether the period of registration for the municipal vote could be extended in any manner.

Some of the aldermen had commented rather adversely upon the manner in which the registration was carried out and the number of complaints received, and it was asked whether registration could not be made easier.

The City Solicitor also makes the following recommendation, which seems more of a solution of the difficulty:

"I would make this suggestion for the future: That the first time charter amendments are applied for that, instead of our present system all electors should register with the assessor and that the assessor's office on both sides of the river should be open for that purpose from early in the year up to, say, the 1st of July. This would allow people to register at almost any time they are down town on business."

HURT WHEN CYCLE AND AUTO COLLIDE

Accident Occurred On 118th Avenue—Injured Man In Hospital.

John Bradshaw, whose address is believed to be 5102 Alberta avenue, was knocked off his motorcycle in front of the National garage, 9358 118th, when it collided with a car. The accident occurred at about 3.30 o'clock Tuesday night by an automobile driven by Chris Varilis, of the Grand Central Cafe, 101st street. Stories concerning the circumstances surrounding the accident are conflicting. Bradshaw was attended by Dr. Campbell and removed to the Royal Alexandra Hospital. He is not seriously injured.

A number of people who claimed to have witnessed the accident told the police that the automobile was proceeding east on the south side of the street and turned across Alberta avenue in front of the garage and ran into the motorcycle. These people claimed that the automobile was traveling fast and the motorcycle slowly.

The driver of the auto, in his report to the police, stated he was traveling slowly and turned to enter the garage for gasoline. He claimed that the motorcycle was proceeding at a fast rate of speed and said he did not see the machine until it was within a few feet of him. He stated that the motorcycle ran into the front of his auto. The motorcycle was badly damaged.

GLEE CLUB FOR SOLDIERS' LEAGUE

Social Side of City Life

EDITED BY MISS MARION SEYMOUR
PERSONALS, MEETINGS, CLUB ACTIVITIES, WEDDINGS AND SOCIAL EVENTS

Miss Gladys Quick is spending the week at Alberta Beach, the guest of Mrs. David Dale.

Mr. McVickers, of the technical school staff, expects his family from Edmonton the first of the week.—Calgary News-Telegram.

Miss Moore, of Central collegiate, and Miss Alford, of Crescent Heights collegiate, are leaving immediately for Edmonton to examine papers, after which Miss Moore will go east and Miss Alford will go to the coast for their vacation.—Calgary News-Telegram.

Mr. and Mrs. T. H. Greene entertained a few friends last evening in honor of Mr. and Mrs. R. McMillin, who leave next week to reside in Edmonton. The evening was spent with cards and dancing. Among those present were Mr. and Mrs. H. A. Moulding, Miss J. Holmes, Mr. W. Hegen, Mr. G. Greene, Miss F. Moulding and Miss Greene.—Calgary Herald.

Mr. and Mrs. N. L. Dodge have returned from a visit to Banff and Calgary.

Miss Allen White has gone to Cooking Lake as a guest of Mrs. H. H. Robinson.

Miss Marjorie Horner left the city on Tuesday afternoon on an extended trip to Banff and Lac Louise. En route she will spend a few days with friends in Calgary and Innisfail.

W. W. R. Vollant and children of Walkerville, Ont., are visiting Mrs. Vollant's sister, Mrs. Bridgman, 1912 12th street.

The Y. W. C. A. swimming classes begin a new term on Monday and will be held every Monday morning and Wednesday evening at the Y. M. C. A.

Miss M. V. Kimball left Tuesday night to spend the summer at Banff.

Among the visitors at Calgary for the fair are: Mr. and Mrs. Alex. Galbraith, Miss Galbraith, C. A. Morse, Mr. and Mrs. R. J. Cato, Dr. and Mrs. Craig and Mrs. E. McCrae.

Miss Ida Tall of Springfield, Sask., is in the city and will remain for the fair.

At the usual Tuesday night concert at the Strathcona military hospital the program was in charge of Mr. Widgoy. The participants were Mrs. Cockburn, Mrs. Capetick, and Miss Gladys Fisher and Messrs. Wilde, Swafeld, Waites, Casely and Shellen. Their efforts were greatly appreciated by the men.

Mrs. P. E. Teets and children left on Monday for Sylvan Lake, where Mrs. Teets has been for the past month or so.

Eczema Made Baby Peevish. Cuticura Healed Him.

"Eczema broke out on my baby's head with humpy pimples. They were sore and red, itching and burning so that baby always had his hands on his head. He was very peevish also. I sent for a free sample of Cuticura Soap and Ointment, and then bought a cake of Cuticura Soap and a box of Cuticura Ointment, and baby got rid of the eczema. He was completely healed." (Signed) Mrs. James Richards, Abney, Lot 64, P.E.I., Dec. 4, '16.

Having obtained a clear healthy skin by the use of Cuticura, keep it clear by using the Soap for all toilet purposes assisted by touches of Ointment as needed. Cuticura Soap is ideal for the complexion because so mild, so delicate and so creamy.

For Free Sample Each by Mail address post-card: "Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

The Daily Poem

BRITON AND AMERICA

We fought you once—but that was long ago!
We fought you once, O Briton hearts of oak;
Away from you—from parent stock
we broke.
Be glad we did! Because, from every blow
we hurled in that old day, a force did grow
That now shall stand you, level
stroke by stroke.
So Heaven help us, who but late
awoke,
The charge upon our common race to know!

And we will stand with you, the world
to save—
To make it safe for Freedom (as we
free have been).
Now shall you see our mutual banners
As one upon the wind—a slight most
brave!

We once did fight you—ev'n as next
of kin
May cleave apart, at end to closer win!
—Edith M. Thomas, in New York Times

so supervising the building of their new country house.

The Margaret McDonald Chapter, I. O. O. E., is holding a lawn tea on Thursday from 4 to 5 at the home of Mrs. H. H. Cooper, Connaught Drive.

Dr. and Mrs. A. F. Anderson and family spent the holiday at Cooking Lake.

Rev. R. G. and Mrs. Stewart and family left Monday night for Seba Beach, where they have taken a cottage for six weeks.

Mr. and Mrs. F. C. Wall have opened their cottage at Seba Beach.

Hon. Duncan and Mrs. Marshall are spending a few days in Calgary at the Fair.

Mr. W. F. Schinners is in Calgary for the fair.

Miss Florence Teets will spend her holidays at Sylvan Lake this summer.

Mr. and Mrs. H. A. Magoon and family will leave the city on Friday for their summer home at Lake Wabamun.

Mrs. J. Muldrew spent from Saturday to Monday at Alx. On Saturday she spoke to the United Farm Workers' Club on the "Place and Purpose of Women's Country Clubs." She alluded to the rapid growth of the country organizations in Alberta, to the almost incredible amount of war work which had been accomplished in the last three years, and told of the immense scope in the redirection of country life. Mrs. Muldrew pointed out many difficulties in the way of success, threw out helpful suggestions for club meetings and outlined many ways in which these organizations could be made a means of service to the country community life.

The sub-executive of the Local Council of Women will have as their guest, Mrs. Geo. Watt of Brantford, treasurer of the National Council of Women, on Thursday afternoon at the Macdonald Hotel. Mrs. Watt has lately attended the annual meeting of the National Council of Women at Winnipeg and will be glad to answer any questions on matters discussed at the convention. Members of the local branch who can attend the event will be most welcome. Arrangements for attending will be made by phoning Mrs. J. Forbes-Reid not later than Thursday morning.

The whist drive and dance that is being held by the South Side Company, 101st E.F., on the evening of July 4th, promises to be one of the most enjoyable of the season. The South Siders are exerting themselves to have the big rink as inviting as possible. Barker's orchestra will provide the music and appropriate refreshments will be served. The special guests of the evening will be Veterans of the Great War. Members of military units will attend in uniform.

The Y.W.C.A. summer camp at Seba was well patronized for the week-end and holiday. Some of the guests were: Miss M. Taylor, Miss E. Taylor, Miss M. Schupp, Miss McElvay, Mr. and Mrs. Ottewill, Messrs. A. M. Mailly, J. R. McIntosh and A. McGavin.

The concert which will be given on Wednesday evening at the rooms of the Y.W.C.A. Veterans' Association promises to be one of the most successful series. The program is most attractive. Miss Jessie Cameron will sing three songs—the ever-impressive "The Star-Spangled Banner," the most charming modern lyrics, Mrs. Fothergill's numbers will be "The River of Years" and "My Ain Folk." Mr. Swaffield has selected in "There's a Land," and "Queen of the Earth," while Mr. M. Mose will give "The Road to Mandalay," and "My Old Shako." The orchestra of seven or eight pieces will render several numbers, including "Lancien Regime," a pretty suite by St. Germain, Elgar's "Salut d'Amour," and "Irish Melodies." A good attendance is all that is required to secure a record success.

Mr. R. B. Bonnet, M.P., is a patient in the Royal Victoria Hospital, Montreal.—Ottawa Citizen.

Messrs. Baker, Cromie and Freedman, left today for Edmonton, where they will be engaged for a time in the examination of papers for the Education Department.—Medicine Hat News.

Mrs. George Duckworth, Mrs. William Johnson and Miss Grace Johnson, have gone to Edmonton for a few weeks' visit with relatives and friends. They will remain until after the Edmonton exhibition.—Galahad Mail.

Miss Edna Sutherland has just completed an engagement in connection with the summer session of the University of California, where she has been giving a series of lectures on voice culture and interpretation. Miss Sutherland, who is lecturer in reading and public speaking in Manitoba college, may become a permanent member of the staff of the Southern University, at Edmonton and other western cities.—Winnipeg Telegram.

CUPID'S COURT

Perkins-Porter

The marriage of Miss Margaret Porter, daughter of Dr. and Mrs. A. E. Porter, of 1148, 94th street, to Mr. J. Perkins, of 1148, 94th street, took place Tuesday evening, at 7 o'clock at the home of the bride. The ceremony was performed by Rev. W. R. Thomson, of Erieview Presbyterian church in the presence of a company of relatives and intimate friends.

The bride was dressed in white silk and had a corsage bouquet of white roses. She entered on the arm of her father, who gave her away to the music of the wedding march played by Miss Peats. There were no bridesmaids or best men.

The house was beautifully decorated with flowers, wild roses predominating. The newly married pair left on the evening train for their new home in Hardisty, the bride wearing a lawn-colored suit, a georgette crepe blouse and a white hat. Mr. Perkins is the manager of the Hardisty branch of the Canadian Bank of Commerce.

On Wednesday, June 27th at five o'clock in St. Stephen's church, Winnipeg, the marriage of Margaret Elsie, daughter of Mr. and Mrs. Roderick Young, Sarnia, Ontario to Mr. A. C. Ferguson, of Edmonton, Alta., was solemnized by the Rev. C. G. Patterson, while Mr. Gee presided at the organ.

The bride, who was unattended, was given away by her cousin, Mr. R. M. Noble. She wore a travelling suit of navy blue, the coat showing a waist of shell pink georgette crepe, trimmed with blue velvet and blue georgette crepe, hat faced with white and mounted with white wings. She carried a bouquet of orchids, roses and lilies of the valley.

After the ceremony a reception was held at the home of Mr. and Mrs. E. C. Pell, 30 St. James' Place, Mr. and Mrs. Ferguson left on the evening train for their new home at Coast cities. They will make their home at Edmonton, Alberta.

The regular meeting of Red Cross circle No. 184 will be at the home of Mrs. H. H. Cooper, Connaught Drive, on Wednesday afternoon at 2 o'clock. All women of the community interested in Red Cross sewing are invited.

The Patriotic Circle of the women of Jasper Place and Westgrove will meet at the home of Mrs. Charles Sanders, Jasper Place, on Wednesday at 8 o'clock.

That "your money or your life" is now the plea of the nation to everyone.

That hints of the tonneau still persist in some of the smartest new models.

That colored velvet for coats is replacing expensive silk sweaters material, and is being worn by smart women for sports coats.

That Ian Hay is soon to make his debut as playwright with a dramatization of his novel "The Luck of the Irish" entitled "Tilly of Bloomsbury."

That the incoming Paris modes this season show long, short, elbow and three-quarter length styles.

That women should now create a demand for food that is in season and reasonable, and which cannot be replaced by instant, fruit and vegetables should replace bread and pastry as much as possible.

That elegance in small checks—pink and white or light blue and white—is among the latest and most inviting for summer frocks, not only for blouse, but also for summery frocks.

That parts which women may take in solving present and future problems arising from the war will be discussed at a national conference of business women called for July 12 to 14 in Chicago by the Women's Association of Commerce.

That heads of every organization of women in Maryland will meet in Baltimore this week to enlist themselves and their clubs or societies on the side of the national food conservation as a war measure.

Towards the end of July, 1770, says an English chronicler, an incident occurred on the Hudson river which greatly aroused the colonists, who were then fighting for their freedoms from the American people. The incident, then, was the capture of the Hudson, and then occupied by Schuyler, a young lady named Jane McRae, who had a lover serving with the British forces. He was a native loyalist, Miss McRae lived with Mrs. McNell, a friend of her family. Toward the end of July the British with a number of Indians attacked Mrs. McNell's house. When the innocent wife of the abode was established the British at once ceased their attack, but the Indians could not be induced to stop. They carried off Mrs. McNell and Miss McRae, intending to take them to the British camp. They were, however, pursued by American soldiers, and it seems these shot Miss McRae by accident while firing upon the Indians. At any rate, Mrs. McNell was brought into the British camp, but of her companion there was only a scalp. This incident made a deep impression upon the American people. They firmly believed that the Indians had murdered the young girl. The love affair added romance to the tragic story. Jones, the lover, left the country and went to Canada, where he mourned the death of the girl he loved until his dying day. He never married.

large number of people who pastured cattle on vacant lots.

The question of fencing was introduced, Mr. Tatham being asked if any fencing had been put up. He replied to the effect that some fencing had been done, and the offenders, so he understood, threatened to pull it out, and kill those who were constructing it.

Early Closing.

Another mix-up in the early closing problem came before council when dealing with the petition received from the jewellers, asking for early closing all the year, save in the month of December.

Assessor Walker reported that he had ascertained that there were 27 jewellers in the city and the petition carried 22 signatures, giving the necessary two-thirds majority upon which council could act.

Last night another petition from jewellers was presented to council, leaving 22 names and asking that any early closing bylaw should not include Saturdays, but that jewellers stores should be allowed to keep open until 10 p.m. on Saturdays.

Mr. Kline appeared in support of this second petition, and said that if Saturday was included, it would bear hardly on a class of jewellers in the city who looked to Saturday night for a large share of their trade. Personally, he took in between \$75 and \$100 on Saturday nights, and if Saturdays were cut out it would mean a yearly loss of something like \$4,400 to him. He would not be able to keep up his payments, and that he would have to leave the city, "probably a broken-hearted and ruined man."

Mr. Kline said that he represented 27 of the jewellers who also stocked jewellery, as it was understood that they would all be included in the bylaw. He added that at least 15 more names could be added to the petition if the city was assessed for the early closing.

Council decided to turn both petitions over to the commissioners and city solicitor for verification of the signatures.

With respect to the early closing bylaw asked for by the music and instrument dealers in the city, council gave instruction for the bylaw to be prepared for enrolling.

Assessor Walker stated that there were 15 such firms in the city and 11 names on the petition, giving the requisite majority.

City Farm. Ex-Superintendent of the city farm, should be given a two-year lease of the farm. The first year Mr. Lyons has the farm free, but the second year he pays the sum of \$175, which was considered a fair rental. Council agreed that he should receive his salary for the month of June.

Mayor Henry pointed out, and council agreed, that Supt. Lyons was due consideration from the city. He left good position in the east in order to come to Edmonton, on the understanding that the prison farm would be permanent. He had done splendid work for the city, and had suffered, which rendered him the more entitled to their consideration.

Arising out of the question of the appointment of an assistant to Prothonotary J. S. Magee, the mayor said that he had talked with Mr. Magee concerning the matter in the light of the present condition of the city's finances and the need for economy. Mr. Magee was perfectly willing to carry on without an assistant, and to give all his efforts to the work, as at present. Therefore the matter could now be left over.

Council regarded this as satisfactory, and no further action was taken.

In March last, in connection with the case "Secord vs. the City," being a damage claim against the city, arising out of the 105th street improvement, judgment was entered against the city for \$10,080, with interest at the rate of 5 per cent. per annum to date of payment. This interest was \$1,422.56, and in addition there is \$430.61 taxed costs of trial and \$142.22 taxed costs of appeal, the total amount payable being \$10,645.36.

Council authorized an appropriation of enough to cover this amount, which will be carried in a suspense account until other claims filed in respect of this improvement are dealt with.

Damage Claims.

A communication from Edwards, Dubuc and Pelton, claiming \$2500 on behalf of C. H. Watson, in respect to alleged damage to lots 57, 58 and 59, H. R. St., was referred to the finance committee.

Council agreed to the recommendation of the finance committee that the claim of J. Kenwood for damage to property by reason of the doing of any construction should be settled upon payment by the city of the sum of \$2200 and taxed costs \$220, the arrears of taxes against the property to be deducted from the payment.

The commissioners reported that a bylaw had been prepared providing a permanent plan for appointment in the civil service, the grading of the respective positions and in doing that a list of registered electors on or before July 31st. Any person who has the necessary qualifications but whose name is not on the list can give notice to the assessor that application will be made to the commissioners to have their names included. The city assessor has to make a list of these notifications, and present it to the commissioners, who have to meet as court of revision not later than August 20. Applicants to have their names placed on the list are required to appear in person and state from the city solicitor containing the suggestion that the

central offices should be kept open for another week was read, but it was thought people could give notice of their applications to the assessor as well as at the central offices.

The suggestion of the city solicitor to govern next year's registration will be taken up at the appropriate time.

The city solicitor recommends that charter amendments be secured which will enable the assessor's offices on both sides of the river to take registrations from early in the year to the end of June in each year.

Local Improvements.

Comptroller Mount called attention to the city auditor's report for 1916, wherein reference was made to the desirability of determining as to the treatment of the expenditures made in acquiring certain lands for various purposes, and which, if any, of those should be dealt with as local improvements. Debentures under the bylaw authorizing the purchase realized some time ago \$675,880.00, and of this amount \$600,364.80 had been expended to date in the purchase of lands for underground purposes.

Clark street closing, \$105,470.90; Clark street opening, \$53,892.20; East End bridge approach lands, \$22,258.85; Edmonston street widening lands, \$9,849.92; Elizabeth street lands, \$302,640.74; Highlands driveway, \$9,928.96; Latta property, \$10,381.78; Old city hall site No. 1, \$2,500.00; Saskatchewan avenue opening, \$16,265.59; St. Placide street opening, \$310.00; Seventh street opening, \$3,085.92; Syndicate avenue widening lands, \$6,016.00; Walker property (city farm), \$2,740.00; Whyte avenue extension, \$4,574.50; Wilson street widening, \$2,066.80; York street widening, \$14,377.90.

With the exception of 3rd street west opening, which had now been assessed as a local improvement, the expenditures for the time being were held in suspense against the bylaw, pending a decision on the question whether they were to be capitalized as part of the city's general assets provided for under the bylaw, or if any portion of them are to be subject to special assessment. Council referred this matter to the finance committee.

WHY THE U. S. FIGHTS
(From the Buffalo News)

We fight this war because we want to make our contribution to the accumulated service of mankind. We stand for a larger justice, a kinder fate for the humblest, a deeper regard for the eternal verities of truth, the sacredness of life and the universal justice of man. Because we conceive Germany opposed to these things—we go to war. And we go to war determined that victory must be ours.

Vimy is New Post Office.

Alberta folk take a keen interest in the war, judging from the latest bulletin of the post office department, which records the opening of a new post office near Edmonton, to be called Vimy. The postmaster is Beart Benoit.

China Now a Monarchy; Boy Emperor on Throne; Troops Prevent Disorder

President of Former Republic Submits to New Order of Things—
Edict Issued by New Ruler Names Him Duke of First Class—No
Trouble is Feared With Populace in Peking.

Peking, July 1—(Delayed)—According to an edict issued in the name of Hsuan Tung, the young emperor, who was put back on the throne today under the protection of General Chang Hsun, President Li Yuan Hung has submitted to the monarchy. The edict follows:

"Li Yuan Hung memorializes us to take over the government, stating that he was forced by the troops during the first revolution to become the nation's head. He bemoans his defects as head of the republic and asks us to punish him. We recognize his mistakes and also his merits. We hereby appoint him a duke of the first class."

Early today Hsuan Tung was taken into the Imperial Palace under the protection of General Chang Hsun and placed on the throne. General Chang Hsun is maintaining the strictest order and no trouble in Peking is feared.

YOUTHFUL EMPEROR TELLS CHINA HOW NEW MONARCHY WILL BE RULED

Peking, July 1—(Delayed)—The imperial emblem is everywhere displayed, marking the restoration of the Manchu monarchy. There has been no disorder in a long edict. Emperor Hsuan Tung, who was restored to the throne today, explains how, being youthful, he was forced to relinquish power to Yen Shi Kai, late president of the Chinese republic.

The country being threatened with disintegration and party strife, and the people appealing to him to take over its administration to save the people from suffering, the young emperor says he was compelled to take action. China's future government will be based on the following:

The country shall be administered according to the constitutional laws promulgated by the late emperor.

Expenses of the imperial household shall remain the same as those fixed by the republic.

Blood princes shall not be allowed to interfere in politics.

There shall be no difference between Manchus and Chinese. Marriage between them is allowed.

All foreign treaties and contracts shall remain in force.

The stamp tax and other petty taxes are abolished.

The republic criminal and civil code is abolished and that introduced the first year under Hsuan Tung's government is reinstated.

Political offenders are pardoned.

The wearing of queues is optional.

A hundred Japanese have arrived to strengthen the legation guard. There is no news of President Li Yuan Hung's expected resignation.

Australia Sticks to Recruiting As Best Way to Get New Army; Need 7,000 Monthly to Fill Gaps

Sydney, N.S.W., July 3—Contrary to general expectations, Premier Hughes has not announced another conscription referendum. He has said the government put forward its proposals last year for compulsory service on the basis that 16,500 troops per month were required to keep five Australian divisions at the fighting strength. Later experience happily proved the British war office estimate too high. The government now appeals to Australia to raise at least 7,000 recruits monthly voluntarily. It also desires to secure such an additional number of recruits as would enable leave to be given to

WATTERS SAYS NO WORK SAVE FOR THE NATION

President Trades Congress Advocates Measures To Force Concentration Of Wealth.

OTTAWA, July 3.—In reply to a letter from the British Columbia Federation of Labor, asking for a statement from J. C. Watters, the president of the Trades and Labor Congress of Canada, as to the attitude labor should assume towards the conscription of man-power as provided for in the military service bill now before parliament, Mr. Watters tonight issued a statement, in which he says:

"I am strongly of opinion that the greatest and most patriotic service we can render to our country, our motherland and our allies in the struggle to preserve our liberties and our democracy is, on the day conscription of man-power is put into effect, to implement the wedge of the principle of man-power as provided for in the military service bill now before parliament. Mr. Watters tonight issued a statement, in which he says:

"If our liberties and our democracy are at stake the government will gladly and courageously conscript the material wealth of the nation to permit of work being executed for the nation by eliminating the last vestige of profit. If such is not done, then we have either been deceived, as the existence of the state is not in danger, or betrayed, as the whole power of the nation is not being consecrated to the task of winning the war."

"Let labor demonstrate their loyalty on the day man-power is conscripted by seeing that the work of their brain and every work of their physical energy is utilized for the support of the men at the front and in defense of the nation, to provide ample remuneration and adequate pensions to the men in khaki and full measure of protection for the dependents of such men, and relieve the nation from the burden of debt which the productive work of labor creates, even if a general strike is necessary to bring it about."

COMING EVENTS

Announcement of meetings (fraternal, religious, etc.) and social gatherings at which no admission fee is charged, collection taken or articles sold, will be published under this heading free of charge. Readers are invited to send to the Office of the News Editor, No. 9324, information concerning events of this nature. Announcements of meetings, etc., at which an admission fee is charged, collection taken or articles sold will be inserted at 10 cents per count line.

L. O. P. court Edmonton, and companion court Patricia, will hold July court on Wednesday the 11th, at 8 p.m. in Oddfellows' hall, over the Douglas bookstore, Jasper avenue.

The Reserve Militia Ambulance Corps will assemble for drill Wednesday evening, July 4th, at 8 o'clock sharp, in city market building, opposite Nelson avenue, First street. Men wishing to join should attend early.

Commencing Monday, July 3rd, the barber shop will close daily at 4 p.m. excepting Saturdays, when they will close at 10 o'clock. 7723-162-c

Dr. Colwell's class for men in St. John Ambulance, Brigade Overseas, will be held at the Y.M.C.A. at 7:45 p.m. on Thursday next, the 5th July.

At present the exact time of Miss Billie Burke's appearance cannot be definitely stated, but she will positively wear her \$15,000 Russian sable coat.

The Argonaut Social Club are holding dances every Wednesday and Saturday evenings in the separate school, Lynch's orchestra.

Chas. McMillan has moved two doors south. Number now is 10175 99th street. Mc-14-x

Third annual Yeomen's picnic will be held at Ron Accord July 4th. The program of sports includes two baseball games, a basketball match and the usual races and concludes with a dance in the evening. Music will be furnished by Sedgewick's orchestra. Meals will be served on the grounds.

Dr. W. H. Albright, Osteopath, 10116 Jasper avenue. Phone 4542.

Dr. Chas. A. Raver, dentist, 610 McLeod Building. Telephone 6746.

Today's Anniversaries

On July 4, 1584, Andrias and Barlow, two experienced naval officers, were sent out by Sir Walter Raleigh for the purpose of discovering and taking possession of the North American continent, north of Florida.

On the same date in the year 1663 Charles II of England reviewed his 4,000 guards, then the whole regular force of the kingdom. This was believed to large as to be dangerous to liberty. The king and his brothers, credited the misfortune of their father, Charles I, to the lack of a regular army.

The declaration of American independence was adopted on July 4, 1776, by congress. It was brought before that body thirty-nine times before it was finally adopted. This took place 264 years after the discovery of America by Columbus, 150 years from the first settlement of Virginia and 150 years after the settlement of Plymouth.

On the same date in the year 1817, or just one hundred years ago today, the construction of the Erie canal was begun in the neighborhood of Rome, Oneida county, N. Y.

July 4, 1825, John Adams, second president of the United States, died at the age of 91 years, while five years later to a day James Monroe, fifth president of the United States, died at the age of 73.

On July 4, 1845, Texas was annexed to the United States.

NEWFOUNDLAND PROSPEROUS.
St. John's, Nfld., July 2.—The greatest surplus of revenue over expenditures ever obtained by the colony of Newfoundland is shown in preliminary statements for the fiscal year which ends on June 30th. Revenue from all sources will be approximately five million dollars, nearly a million dollars in excess of expenditures. This is double the surplus of the previous fiscal year. The increase is due to the enhanced value of fishery and other products of the island.

WARSAW POLES STARVING.
Stockholm, July 3.—Thirty Poles now in Stockholm, M. Scheko, formerly a member of the Russian upper house; M. Bobieski, and M. Sobanski have issued an appeal for aid for the Poles of Warsaw, saying people are dying in the streets of hunger.

Adventures of Uncle Wiggily

By Howard R. Goss

Uncle Wiggily and Humpty Dumpty

Copyright, 1917, by McClure Newspaper Syndicate.

"Excuse me," spoke a gentle voice behind Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper, who was cleaning the steps of the hollow stump bungalow one morning. "Excuse me, but can Uncle Wiggily he out to play?"

"Be out to play?" repeated Nurse Jane. "Do you mean play with you?" and the muskrat lady turned to see a little girl, with flaxen hair, standing at the foot of the steps.

"Yes, play with me, if you please," said the little girl. "I'm Alice from Wonderland, you know, and Uncle Wiggily and I had such a jolly time yesterday, when the Unicorn tickled the alligator and made him laugh, that I'd like to go off with him again."

"With whom—the alligator?" asked Nurse Jane.

"No, with Uncle Wiggily," laughed Alice. "Where is he?"

"Here I am, Alice. I've just finished breakfast," answered the bunny rabbit gentleman himself, as he came out on the front bungalow steps. "Are you ready for another auto ride?"

"Indeed, I am, thank you. And as tomorrow is a holiday I don't have any school today."

"That's funny," said Uncle Wiggily, twinkling his pink nose. "What holiday is it?"

"The Fourth of July," answered Alice. "Have you forgotten? Even though I am an English girl I know what it means. Your boys and girls shoot off lollipops, bang ice cream cones and light red, white and blue candy."

"Candy? I guess you mean candles!" laughed Uncle Wiggily. "How do you do that?"

"Oh, you're right," said the Fourth of July gentleman, and where, years ago, we used to shoot off firecrackers (when many children were burned), now we have a nicer holiday. We go off in the woods and they gather flowers. Why, do you know? cried the bunny uncle, "there are flowers just right for Fourth of July. There are puff balls that are as good as torpedoes, and snail-dragons that open their mouths and make believe bite you, and there are dogwood flowers that bark and red sunnich which is just the color of firecrackers."

"Then let's go off in the woods and have Fourth of July there," proposed Alice, and soon she and the bunny uncle were in the automobile. And then, along came Sammie and Susie Littletail, the rabbit children, and Johnnie and Billie Bushytail, the squirrels, and Jackie and Peetie Bow Wow, the piggy dogs.

"Oh, Uncle Wiggily!" cried these animal boys and girls. "Take us with you for Fourth of July!"

"Of course I shall!" promised the bunny gentleman, so they all got in the automobile with him and Wonderland Alice, and away they went.

"They had not gone very far before, at a sudden, they came to a stone wall, and when Alice saw something on top of it she cried:

"Why, there's my old friend Humpty Dumpty. I must stop and speak to him or he'll be proud," and she waved her hands.

"Why that—that's nothing but an egg!" said Sammie. "It's like the ones I collected for Easter when the skink-sink dye splashed all over me. That isn't Humpty Dumpty at all—it's an egg!"

"Hush!" whispered Susie. Humpty Dumpty is an egg, of course, but he doesn't like to be told of it. Don't you know the little verses?

"Humpty Dumpty sat on the wall, Humpty Dumpty had a great fall. All the King's horses and all the King's men Couldn't put Humpty Dumpty together again."

"That's right," said Alice from Wonderland. "Only don't speak of the fall before Humpty. He doesn't like to be reminded of it."

"If I don't see why," spoke Jackie Bow Wow. "He can't hear a word we say. He's only an egg—he hasn't any ears."

"He really isn't dressed yet," said Alice. "A cat had been to him and made him look more human."

With that she jumped out of the auto, and taking two ears of corn from a field nearby, she fastened them with silk from the cob, one on each side of the egg.

"Now we can hear," said Alice. Then with tulip flowers she made Humpty a mouth and from a potato she took two eyes, so the egg policeman could see. A cat had been to him and made him look more human."

"He really isn't dressed yet," said Alice. "A cat had been to him and made him look more human."

With that she jumped out of the auto, and taking two ears of corn from a field nearby, she fastened them with silk from the cob, one on each side of the egg.

MEN! Have You Ever Stopped To Think Why "Holeproof" Hosiery Is Guaranteed and Why You Should Buy Now?

The makers of Holeproof hose secure the best grade silk from Japan, and the finest grade cotton fibre from Egypt. If ordinary yarns were used prices would be lower, and there would be no guarantee, for the simple reason they wouldn't be HOLEPROOF.

Holeproof hose is a highly mercerized cotton, possessing extra strength and a lasting lustre. The makers of this famous hose are continually warning retailers and jobbers of higher prices; this in turn means higher prices to our customers. Buy a good supply now before our stock is depleted and has to be replaced at present day prices—the saving makes it worth while.

Men's Lisle Hose in Boxes of 6 Pairs With Guarantee, \$1.75

A good medium weight for Spring and Summer wear for considerably less than they'll be later on. Made of fine lisle thread in black, tan, gray and navy, with extra spliced heels and toes. Sizes 9 1/2 to 11 1/2, with six months' guarantee \$1.75

Men's Silk Lisle Hose in Boxes of 6 Pairs With Guarantee, For \$2.25

A splendid wearing hose with rich appearance. Made of best quality lisle thread, with silk-like finish in black, white, tan and gray, with extra spliced heels and toes. Sizes 9 1/2 to 11 1/2, with six months' guarantee \$2.25

Women's and Misses' Smart Outing and Sport Middies at 98c

Women who have another middie or so to purchase before going out to the beach, should make a point to make our Whiteout Section a visit on Wednesday, and secure one of these middies at 98c. They are made of white middie drill with sailor collar, laced at neck, with or without belt and pockets. In all white or white with collar and cuffs in copen, navy or red, or in copen and white, sky and white, flesh and white, or rose and white stripes. Sizes 34 to 44. Special at 98c

Popular D. & A. and P.C. Corsets, Specially Priced at \$1.25

Women who have a preference for the D. & A. or P.C. corsets should not overlook this opportunity of getting an extra pair at the moderate price of \$1.25. They are of the strong coutil and fancy white brocade, in white only, in medium, low and high bust, with 4 elastic webbing hose supporters; trimmed with convent edging. Sizes 19 to 30. Specially priced at \$1.25

WEDNESDAY, JULY 4, 1917.

Reports from all parts of the country hereabouts are that the farmers, the soil and the weather are doing their bit in a grand alliance to beat the threatened food famine.

There is no telling what the ingenuity of the price-boosters may devise next, but they really seem to have exhausted the possibilities of the strawberry business by boosting both the price and the bottom of the box.

So long as the profiteers are allowed to go on the principle that they are entitled to whatever they can get, the people are likely to go on the principle that they are entitled to eat and waste whatever they can or please. Example is contagious. If the Government will show itself in earnest on the food question the public will get in earnest about it, too. And in the nature of things, most of them will not do it until then.

Those who are disposed to think lightly of the threats of rebellion in Quebec if conscription is applied there in an autocratic manner would do well to read the press dispatches telling about the race riots in St. Louis, and the killing and burning that is going on there as the result of feeling arising merely out of an industrial dispute. There is quite as inflammable material lying around loose in Canada just now as the St. Louis whites and the imported negroes offered there, and it is not the part of statesmanship to throw brands about when another course is open to adoption.

The Canadian people are urged to eat only whole wheat flour, and to thus increase the flour-making capacity of wheat by some twenty per cent. They have been urged to do so for some time, but seemingly have not responded in any general way. The easiest way, and seemingly the only one, to bring about the desired saving is to prohibit the mills grinding anything but whole wheat flour, and to forbid the importation of any other kind. And surely the situation is serious enough to justify the restriction. If not, then it is not serious enough to justify the admonitions. There is no reason why one family should be allowed to waste wheat while another family is compelled by loyalty and public spirit to save wheat.

The Edmonton exhibition has not been run as a "local show" and should not be. It aims at bringing together the best agricultural, live stock and other products of the whole of Northern Alberta, and of subjecting these to comparison by unprejudiced experts. Its benefits are open to the producers of the whole country of which Edmonton is the business centre, and will be shared by each community in proportion as its people participate in the exhibition of farm and other products. As it is a North Alberta fair, it deserves patronage from the people of the district it aims to serve, and not merely from those living in the city in which it is held. As in past years, it should this year be the great annual outing for thousands of visitors drawn from all points in the northern half of the province.

Monday next—the fair.

The Greeks once more rule Greece.

It begins to look as though the Russians had sobered up.

Among the other duties of the hour do not forget to swat the fly.

Canadians have vindicated both their right and their intention to perpetuate Dominion Day.

King Alexander seems to think that the "brilliant policy" of his "revered father" was to keep the throne, and that the best way to do it is to do differently.

The republic of Brazil has decided that it does not want to be longer recorded as neutral on the question of whether it is to remain a republic or become a province of Kultur.

Food control should begin with price control. There is nothing to be gained by urging people to eat what they cannot afford to eat in order to save what they can afford to eat.

If it is true—and we are told authoritatively that it is—that waste grain is to doom people in Allied countries to starvation, then what sort of responsibility rests upon the Canadian Parliament for allowing grain to be wasted in the breweries and distilleries?

Government papers are now publishing statistics to show that the Government is taxing profits to a degree that should satisfy the demands of everyone but the inappetible expropriator. What they do not publish is a list showing that the profiteers have boosted prices so as to take the taxes out of the public several times over. The taxation of profits without the regulation of prices simply takes the money out of the pockets of the public under pretence that it is being taken out of the coffers of the profiteers—and allows the profiteers to plunder the public under cover of the tax.

The returned soldier is certainly entitled to sympathy on account of some of the ways that are proposed for getting rid of him. A year ago newspapers in Eastern Canada were promulgating fantastic schemes for colonizing the soldiers in remote regions where no one has settled for the reason that no one can see how he could make a living in the isolated conditions. As the common sense of the soldiers saved them from falling for these propositions, the inventors are naturally in the dumps, and are now spreading the idea that it is useless to try to get the returned soldier to take up farming. The notion of suggesting that the returned soldier be given a chance to get into farming under conditions in which farming is possible does not seem to have occurred to these eastern authorities on western conditions, nor is it likely to. If the returned soldier is to be given a chance to get on a farm that he will be able to stay on without starving it is clear enough that the scheme will have to originate in the part of the country where land for settlement schemes is available and where the conditions necessary to settlement are understood. Toronto and Montreal newspaper offices are poor places to look for advice as to where and how to put men on land that they would be able to stay on.

SIX STORES BURN AT SEVEN PERSONS; STARTED IN GARAGE

Medicine Hat Fire Department Made 17-mile Run in Good Time

Medicine Hat, Alta., July 3.—The village of Seven Persons has been visited by a disastrous fire. The places burned were the Seven Persons Farmers' Co-operative Association general store; Blith's hardware; Smith's pool room; Harris' grocery; Hunt's garage, the post office, and Poom's implement warehouse. All have insurance, but Mr. Harris, who lost everything, has a total loss estimated at \$75,000. The fire started from an unknown cause in the workshop of the garage. The Medicine Hat fire department made the seventeen mile run in forty-five minutes and saved the adjoining buildings.

DR. W. W. AMOS APPOINTED.

Regina, July 3.—Announcement was made today that Dr. W. W. Amos, late deputy commissioner of the Saskatchewan Liquor stores system, has been appointed deputy provincial treasurer and registrar of joint stock companies, succeeding E. J. Wright, who died recently. Dr. Amos has been fifteen years in the west, coming out in 1903 as surgeon in charge of the hospital of the Barr colony and settling in Lloydminster.

THE PROBLEM OF QUEBEC.

The problem of Canadian military service overseas is the problem of Quebec. If there were no Quebec in Canada there would be no problem. Military service would be either voluntary or compulsory. In either case, there would be sufficient service.

The Government has decided to displace voluntary by compulsory service. There are objections to compulsory service outside Quebec and for causes other than those that prevail in Quebec. These objections added to those of Quebec, raise formidable difficulties against the efficient enforcement of compulsory overseas service in Canada.

There is a problem to be solved. The Government measure accentuates the difficulty rather than solves it.

Sir Wilfrid Laurier offers a means of solving the problem. He says in effect: "If the majority of the electors of Canada declare for compulsory overseas service at the polls, I will pledge myself and my party that my province will loyally abide by the will of the majority so expressed. If conscription carries, they will accept conscription. If it fails, they will support voluntary enlistment, and if they are dealt with fairly, they will respond as loyally as other portions of the Dominion."

ANSWERS

This department does not pretend to be infallible. It will endeavor, however, to answer questions sent to it by readers of The Bulletin to the best of its ability, reserving the right to ignore all that are trifling or of no general interest. To receive attention, every inquiry must bear name and address of the inquirer. This information is not wanted for publication, but as an evidence of good faith.

Artillery Recruiting. To the Bulletin: Can you please tell me where recruiting for the artillery is now in progress?

Old Countryman, Vegreville. So far as we know there is no recruiting at present in Canada for artillery service. The Federal Minister of Militia is quoted as having said that the British Government had intimated that they have more artillery recruits in England than they need at present.

The Red Bug. Will you please answer the following: (1) What is the technical name for the common red bug? (2) After the egg is dropped from the adult female, how long does it take to hatch? (3) In case of their being present in a vacant house, how long could they exist without the house being occupied? (4) In case they are not very abundant, what or by what means is the better way to exterminate them?

C. C. S., Edmonton. To the Bulletin: Can you furnish the answers? 4: Any drug store can furnish an efficient insect destroyer.

LEGAL INQUIRIES

Legal questions will be answered in this department of The Bulletin, after being submitted by the reader to the legal representative. Write on one side of the paper only. Be brief. Send stamped envelope for reply.

To the Bulletin Legal Department. Will you kindly say through your inquiry column in the Bulletin whether it is legal for a person to deepen or widen natural water courses for the purpose of drainage (on his own land) even if the water thus released should flow on to adjacent land (either vacant or occupied); also will you say if there is any federal or provincial Act of Parliament on this matter, and if so, where could such Act be obtained?

It is not legal to interfere with a natural water course, if such interference damages any other party's property. There is no Act of Parliament that covers the same; the common law rule is the only law in force. To the Bulletin Legal Department. Will you please explain through the question columns of your paper the method of businesslike method to pay off a land mortgage (delivering the money), having mortgage papers and title delivered and mortgage released.

A SUBSCRIBER. The proper way to pay off a land mortgage is to tender the amount due to the mortgagee or his agent. A legal tender would be either in dominion or bank notes or in gold. After tendering the amount due, the mortgagee should require the mortgagee to hand him the duplicate copy of the mortgage with the discharge. The duplicate mortgage and discharge should then be sent to the land title office for the registration district in which the land is situated with a request that the registrar discharge the mortgage and send the title to the owner.

World's Costliest Movie Now On.

"It costs a lot more to live than it used to." "Well, good heavens, man! Just think of the big rip roaring show you're gettin' for your money."

Semper Eadem

Turn the scroll of England's glory, Shout that mighty deeds endure, How the breed which won at Sluys Matched the pride of Agincourt; That the chivalry of Crecy, That the sound of Nelson's name, Are as beacons for the battle Where the lights of honor flame.

Current Comment

British Captured Hell.

From the Chicago Tribune. In its latest ridiculous drive England's Contemptible Little Army has captured L'enfer (which we take to be a misprint for L'Enfer). Those Prussian troops that "can fetch the devil from hell" had better convey Old Nick to a position "previously prepared in advance."

The Old Cure for Hunger.

From the New York World. Evidently with no fear of the reformers, a member of the British Parliament advises men "to smoke more and eat less" as a remedy against a short food supply. The American Indian centuries ago discovered that remedy against food shortage.

Ireland Asks a Dominion Status.

From the Irish Independent. It is idle to pretend that anything short of full Colonial Home Rule will be regarded by Irishmen as a final settlement, and a final settlement is what the Government profess to have in view. Ireland will not be content with a provincial status, and the Empire, Ireland demands, as Lord Montagu suggests, "a Dominion status as a self-governing unit; its position must be co-terminus with that of Australia, Canada and South Africa."

Will London Lose Government?

From the London Daily News. It is not to be forgotten that Mr. Lancaster in his recent book, "Air-Craft in Warfare," actually suggests the removal of the seat of government from London as a possible necessary defense measure against just such attacks. We do not say it has come to that yet, or ever will, but it is very true that the power of this form of assault should be coolly realized. It cannot determine the war; but it is much more dangerous than the Zeppelins.

He Died for the Empire.

From the Springfield Republican. There has been at least one distinguished Irishman, a member of Parliament and leading House of Commons, who has willingly died for the cause of the Allies in this war. Major William Redmond has given by his death in battle in Flanders a special distinction to his family and has again proved that Irishmen can never throw off their habit of cheerfully dying for the Empire. The memory of this gallant man, who made himself into a soldier after reaching 50, will live long among his people.

A Tolstoy Prophecy.

From the Philadelphia Ledger. Is Northcliffe to be the man to whom Tolstoy's prophecy of the war pointed? Tolstoy said, after declaring that he saw in prospect "all Europe in flames and bleeding" in 1915: "But after 1915 a great Napoleonic leader enters upon the stage of the bloody drama. He is a man of little military training, a writer or a journalist, but in his grip most of Europe will remain until 1925." At any rate, Lord Northcliffe—already acclimated—is the finest personage, backed by indomitable courage and persistence, which must mean an irresistible stimulus to the cause in which England and America have joined hands.

Are Barbarians Now.

From the New York Telegraph. In the early days of the war it was declared from Berlin: "We are called barbarians; it is false. We are not—yet." It was admitted that the time might come when, denied victory by these apostles of Kultur, might be their veneer of civilization. The boundary was passed long since; that is the conclusion which the civilized world has reached. In the test of news, reminding us of all those dead bodies of peaceful citizens, their wives and children, many of them indistinguishable human remains, torn and lacerated by these apostles of Kultur, and a bloodstained page to the calendar of murders by land and sea committed by these unspeakable cowards and barbarians.

ANOTHER LOAN TO BRITAIN

WASHINGTON, July 3.—Twenty-five million dollars was placed to the credit of Great Britain today by Secretary McAdoo, bringing the loans to that nation up to \$55,000,000 and the total loaned all the allies to \$1,043,000,000.

WELLAND CITY

WELLAND NOT. July 3.—Welland officially became a city yesterday. The inauguration of the city and the semi-centennial of confederation are being jointly celebrated today.

With The Humorists

Speaking of Grievances. "Here caddy, you haven't given me enough change." "Well, mister, you can't expect to hire boss an' keridge an' an expert accountant for 50 cents a mile." Pathfinder.

Safety First.

Railroad Foreman Sambo, if we had war wouldn't you like to be captain and get in front and holler, "Come on, boys!" "Sambo, no, sah, boss. I'd rather git behind an' holler, "Go on boys!" —The Christian Herald.

Isn't War—?

"In Germany," writes Oscar King Davis, "there is no butter to eat on bread, or cake or pie."

"Oh, dear, dear! What is pie without butter on it?"

Her Part, Not His.

"John," whispered his wife, "I'm thoroughly convinced that there is a burglar downstairs."

"Well, my dear," replied her husband sleepily, "I hope you don't expect me to have the courage of your convictions."

Why She Stayed.

"How long did your last cook stay with you?" "Oh, about five hours."

"How did that happen?" "The afternoon train back to town has been discontinued."

Bulletin's Mail Bag

Letters on subjects of current or general interest will be published in this column. Each letter must be accompanied by the name and address of the writer, but such information will be treated as confidential if desired. Correspondents should remember that brevity is at all times desirable.

CURTAILING EXPENSES

Editor Bulletin. Sir.—The city aldermen at the present time are discussing the ways and means of obtaining sufficient revenue to meet expenditures. We are constantly being told that expenses have been cut to the lowest limit, and that the city is governed under a policy of rock bottom economy. This is difficult to believe after one has witnessed a few incidents like the following.

The time—about a week ago; the place, on 107th street south of Jasper; the actors, three city employees, two being workmen, the other a "boss" (you could easily distinguish the boss as all he had to do was to give the orders). The paraphernalia consisted of a ball of twine carried by one of the men. Their work was to tie the small trees to stakes already driven in the ground. The director of manoeuvres told them which tree required attention (they could have easily seen this themselves by the small standing beside it). The men held the sapling over the stake, the director told him it was straight, and the other bound it with a piece of cord. This having been duly done, the boss then said, "That will do—this tree next," and so the performance went on.

Anything more ludicrous and absurd could hardly be imagined, especially to the only trees requiring attention were fairly withered, none being larger than what an ordinary ten year old boy could handle alone. The whole affair is serious, though. It represents the way economy is being carried out in the department that has supervision over the streets and boulevards of the city, and savors altogether too much of the pained when the sapling ran riot.

I would suggest that a little investigation by the city commissioners would do no harm.

OBSERVER.

PROHIBITION SHOULD PRECEDE CONSCRIPTION

Editor Bulletin. Sir.—The prohibition leaders in Great Britain have an explanation for a dropping off in recruiting in Canada in the failure of the British government to suppress the liquor traffic. They claim that the government has not kept faith with those who are being overwhelmed in favor of prohibition. Thousands of immature boys, from the farm, the office, the shop, and the school, filled with high ideals and eager to express their devotion to Canada and her principles, enlisted in our expeditionary forces and crossed the seas to face death on the plains of France. They were subjected to temptations of drink and its accompanying vices to which they were strangers in their home towns. Britain's greatest enemy debauched boys before they met the Teuton enemies. This is the testimony of many members of Parliament and Christian ministers of England. The facts are strongly declared by Arthur Mea and the "British Weekly," based on suppressed by our government lest they further hinder recruiting. But are Canadians to be treated as slaves to help the truth be suppressed to help the cause of liberty? Can democracy survive without freedom of speech?

On Saturday a press dispatch announced that the British government had decided to increase the production of beer for this year from ten million barrels to 13,333,333 barrels. We are urged to eat less so there will be more grain for the army. I have read letters from the country which say that many of the people having large families are going on longer allowances. Surely the liquor interests have a right to hold on the government of Britain.

Before conscription is enforced in Canada the government should close the breweries and distilleries. There has been a loud and more general and incessant call for the prohibition of beer for this year than there has been for conscription of men. Is it possible that the vested interests of the liquor men are more sacred than the men and boys of the country? Are men the cheapest article of the war? And must they be sacrificed first? When a boat has to be lightened to save it from sinking, the cargo is usually thrown over first—not the passengers. It is hard to make a thinking man believe that a very pressing emergency exists when neither the British nor Canadian governments think it necessary to close the liquor factories. Let them make a decision which their authority is unquestioned and then the call for men will be heard.

SIR ROBERT BORDEN'S STATESMANSHIP

Editor Bulletin. The parliament of which Sir Robert Borden is leader has outlived its present life extended conditionally. These conditions are being violated in a not a question at issue under the leadership of the government. He made certain promises and representations to the imperial government. These promises the country is in duty bound to fulfill. Yea, further, our obligation to the government is not a promise made when the necessity was not so great, but limited only by our ability to meet the necessities of the situation.

It is apparent at a moment's glance that if we were to contribute our quota in the same ratio as the mother country has done, we would be required to supply not 500,000, but between 800,000 and 900,000 men. If we are part of a great imperial confederation, it is difficult to see why certain parts of that compact should bear heavier burdens than other sections. Sir Robert and the members of his government assured the country for twenty months that the contribution promised would be supplied by voluntary enlistment. Even when the National Service commission was appointed, the assurance was given that no conscription was contemplated.

Having failed to fulfill his obligation, there were three courses open to the premier. The first course, which he has followed, resort to compulsory legislation which a parliamentary majority may be able to enact into law. The second course would be to supply a voluntary enlistment. Even when the National Service commission was appointed, the assurance was given that no conscription was contemplated. Having failed to fulfill his obligation, there were three courses open to the premier. The first course, which he has followed, resort to compulsory legislation which a parliamentary majority may be able to enact into law. The second course would be to supply a voluntary enlistment. Even when the National Service commission was appointed, the assurance was given that no conscription was contemplated. CREDITS ELOQUENCE OF KERENSKY WITH ARMY'S NEW FIGHTING MOOD

The new chief of the war ministry information department, Lieut. Perun, has just returned from the front, where he witnessed M. Kerensky's crusade in favor of an immediate offensive. This officer told the Associated Press that the great eloquence of Minister Kerensky was largely responsible for the change in the army's mood. Lieut. Perun was present when M. Kerensky, having told the soldiers that if they would not attack he would march toward the front, and that the army was embraced and kissed by the soldiers.

War Minister Kerensky's merit, the lieutenant declared, is that he first realized that the Russians will fight only if they are convinced that they are fighting for freedom at home and international peace. The war minister, he added, has accomplished the almost impossible task of convincing the soldiers of that fact. Lieut. Perun said that the change of the army is markedly better than Petrograd thinks. Crowds of enthusiastic citizens marched through the streets of Petrograd today carrying portraits of War Minister Kerensky and General Brusiloff, while others thronged the sidewalks and filled balconies and windows cheering and waving flags and handkerchiefs in celebration of the first victory of Russian arms on the western front since the revolution.

Cossacks in Good Hands. General Kaledine, who captured about 30,000 prisoners in a forward movement last year, and who is known as the breaker of the Lutz front, has been chosen hetman, or leader, of the Don Cossacks.

Details from an authorized source of the victorious Russian attack in Galicia.

Man of the Hour In New Republic

WAR MINISTER KERENSKY, the man responsible for the renewal of the offensive by Muscovite troops.

cia state that a Finnish division participated in the victory of Konuchy. All enemy trenches on the slopes of Mount Bredniaya Gora, east of Konuchy, were occupied. Besides the village of Konuchy, the forest west thereof as far as Konuchy, and German trenches south of Konuchy and the wood west of the village of Schiballim, also two lines of trenches northwest of Zolotukhi and similar positions southwest of Konuchy, east and south-east of Bitchichou fell into the hands of the Russians.

KUTER AS APPLIED TO BELGIUM WORKERS

Amsterdam, July 3.—News received here from Germany says that an extraordinary war tribunal has been instituted and began by sentencing two Belgian laborers to five and three years penal servitude for treason. Another workman received six years and several male and female workers imprisonment for from two to eight months.

AT BANFF

The Homestead Hotel management sends out the following suggestions to auto owners in Alberta and Saskatchewan, both town and country districts, expecting to visit the Canadian National Park at Banff this summer. You will find the highway leading from Edmonton to Calgary is now officially mapped, and also, the one from Calgary to Banff. The run from Edmonton to Calgary is about 200 miles and is a beautiful drive. The scenery is out of this world with good accommodation at most all towns along the road. A half day's ride through the beautiful city of Calgary is well worth while, and a run in the afternoon of 4 or 5 hours along a magnificent foot hill and mountain trail bring you to the important city of Banff, located about the centre of the Canadian National Park, where you will be received by the Management of the Homestead Hotel at very reasonable rates and have free garage for your car while you are our guests. If you have never made a trip from Calgary to Banff, in an auto, you have something indelibly beautiful coming to you. For rates and information please write or Phone 7473.

Central Alberta's New Prosperous Communities

Alliance District, While an Old One, Just Now Coming To Its Own Through Opening Up of New Line of C.N.R.

Lack of Railway Facilities Held Up Development For Long Time — Then C.P.R. Came Into Country to North—Later the C.N.R. Arrived, and Business Sprang Up Almost in a Day.

The Alliance district is an old, new district. When the rush of American settlers of twelve years ago was on to western Canada, many of those who are now the most prosperous citizens of the district made their way down the Battle River valley from Wetaskiwin, then the nearest railway point. They came by ox team mostly in those days and were of the type that knew how to pioneer.

Very little farming could be done then, as the long way to a shipping point discouraged the production of grain. Cattle and horses were the main stay of the new settlers. Enough grain and vegetables were, however, grown to demonstrate the value and fitness of the new country for home-making and the settlers stuck to the country waiting for the coming of the railroad.

Those were hard days and many a man today who knows no fear like that which came to the early pioneers recalls the grip of uncertainty that came to them when the winter set in on the dreary plains so far from supplies. In time the C. P. R. came through the country twenty miles north of where Alliance, Forestburg, Galahad and Heisler now stand. Then the farmers began to plant and haul over the twenty miles the grain that was to demonstrate the real possibilities of the valley, sparingly at first, for seed was hard to get and the price uncertain. But in time most of the men with the courage to go ahead began to see light ahead. Old debts were paid, houses and barns were erected, fences were put up and the homemaking period was begun. Stock, in the meantime, had increased wonderfully on the splendid pasturage found everywhere over the wild lands. The settling of the country round about increased the market for both stock and grain; more ground was plowed, but it was soon seen that only so far and no more could operations be extended with twenty miles of haulage between them and the railroad. But they had faith, those men, and with an eye to the future, schools were organized, churches came and the things that count for the young began to take shape.

It was a great day for the men and women of the rich valley lying north of the Battle River when one year ago last April the last spike in the C. N. R. branch from Camrose to Alliance was driven and the company announced it was ready to begin hauling grain. The year before in anticipation of the event large tracts of new ground had been plowed and seeded. The crop proved to be a bumper one.

Before the elevator companies could get things in readiness, the wheat and other grains commenced to roll in for shipment. Sheds were erected, cribs were improvised, even canvas coverings on a board floor were made to do duty. Around the depot sites

the grain piled up until betime the cars began to roll out over the new line a million bushels awaited shipment. Then there was more congestion because of a lack of cars. Still the grain came from the farms, the nineteen elevators along the sixty miles of line became filled, every nook and corner of every vacant house, shed or barn became choked, the price was steadily mounting toward the present war level and the country was flooded with money. Farmers paid their bills and traded for cash. Automobiles began to appear along the country roads, new houses loomed up where yesterday stood the sod or log shack. New fencing replaced the broken down lines and above all in every field could be seen great black squares of newly broken sod, then the crop of 1916 began to ripen. At first the cry of frost led most of the farmers to not expect much but when the threshers went to work out rolled the golden grain in quantities equal to former years. It was moved toward the elevators, the cars were slow in coming, the congestion grew serious and long before relief came at each station half a hundred temporary sheds were filled to the roof with the new crop.

At last the railroad began to get cars out on the line. Here it is worth while to mention that no empty cars went into the country. The demands of the people for goods loaded every grain car needed for hauling away that huge crop. They came out loaded with machinery, merchants' supplies, automobiles, farm necessities and new settlers' effects. Every one of these cars was loaded to the limit with grain and sent on their way to a hungry world; six hundred and sixty-six altogether and still some of those elevators are filled. They stand there today filled to the brim with the staff of life, every bushel of grain in them worth upwards of two dollars.

Now let the story of this rich valley come to a climax that will stretch your imagination by stating that only about ten per cent. of its cultivatable lands have ever been plowed. They are laying there as wild as nature made them, awaiting the plow in order to give to the world enough food-stuff to feed—How many? Intending settlers in western Canada could do no better before making up their minds where they will make their future homes than visit the Battle River Valley.

CREAMERY INDUSTRY HAS CENTRE IN THE BATTLE RIVER VALLEY

Three times a week the train from Alliance brings to Edmonton and Camrose an average of eighty cans of cream, the price of each can averaging \$7.00, \$5.00 each trip on that train means that each month the farmers living along the line will receive checks amounting to close to \$7,000. As there are no big dairies, and none of the farmers are in the business to any great extent, the total rather being made up of a few cows at many farms, that \$7,000 will be scattered among a lot of people and make for the women, and in some cases, the men, a neat little sum of spending money.

This cream industry means a great deal more to a farming community than the sum of seven or eight thousand dollars per month might at first indicate. It means the difference between the homelife on a farm whose owners engage solely in the raising of grain and that on which they engage in mixed farming.

Skim-milk from which the cream has been separated, suggests calves scrambling for their breakfast, pigs squealing and shoving each other about for a choice of place at the trough, hens laying industriously because they get their share of the white liquid with their rations. In turn all these things about the farm tell the story of happy kiddies and satisfied women, as well as men. On a well

balanced farm there is not a month in the year but that something is ready for the market. Credit from their merchants is not often asked by the man with the cream can in the back of his wagon.

No better education can be given the boy before he leaves for college than a first-hand knowledge of the stock found on a mixed farm. His technical education will fit well on this practical foundation.

Just now there is some anxiety among farmers with abundance of stock over the high prices of wheat and grain, but it is thought that owing to the many natural advantages held in the Battle River valley for the mixed farmer, he will not yield to the temptations to quit his dairy and go exclusively into the grain raising business. Those who do stick to the dairy as a part of their business will in the long run reap ample rewards, both as to the condition of their finances and general happiness, for it is not within reason to expect anything but good prices for the products of the mixed farm during the next ten years. Stock herds have been depleted by the butcher until in both Canada and the United States it will require fully that many years to restore the industry to a normal condition. There are those who believe the Battle River valley will develop into practically a purely dairy district; the natural advantages of its well watered lands seem to indicate such a show. Experiments already made show beyond a doubt the richness of the wild hay from the meadows while the cultivated fields produce the very richest of tame foods. Another feature not to be despised are the numerous parklike groves of poplar that offer splendid shelter for the stock.

Evidences of Alliance's Growth

No. 1—Alliance as it appeared a year ago last April.
No. 2—Alliance Elevators, erected during the last year. From these two hundred and sixty cars of wheat have been shipped and they are both still well filled with grain.
No. 3—The Town of Alliance as it looks today with two hundred and fifty population. "The liveliest little town in Alberta," is the way the traveling men speak of it.

Fine Farms Line Valley Battle River for Miles

In Little Over Year 666 Cars of Grain Have Been Carried Out Of District Over New Line of C.N.R.—To This is Added Big Output of Dairy Products and Other Farm Outputs.

A trip over the new C. N. R. line to Alliance causes one to think in big figures. For sixty-two miles the line runs down through the valley as straight as survey instruments could lay it out, with a continuous string of splendid farms on either side. When one is told that though the line has been in operation only since April one year ago, yet there have been 666 cars of grain carried out by this means, the bigness of the thing is slow to be comprehended. Just stop to think what 666 cars of wheat means in round figures. First, multiply this number by 2,000 bushels, which is the average capacity of a car, and you have 1,332,000 bushels. Multiply this, in turn, by \$2, the present average price per bushel, and you have the neat sum of \$2,664,000. Enough to make a newspaper man's head swim.

A bushel of wheat makes sixty loaves of bread. Multiply again and you will find that close to eighty million loaves could be made from the product of the farms of the Battle River valley, and first-class loaves they would be, too. Eighty million loaves of bread would feed twelve million allied soldiers for seven days. Fifty valleys like the which skirts the Battle river would keep the allied armies in breadstuff. The valley at present is only about 10 per cent plowed. If farmed to the fullest extent it and five belts of its kind would feed the armies.

And now consider this: Three times per week an average of seventy-five cars of cream come to Edmonton off this line. The average price paid the farmers runs around \$7 per can. These checks total monthly the tidy sum of \$7,000, or thereabouts. As spending money for the farm women this looks good. Cream suggests the by-product of skim milk, which, fed to frolicking calves and frisky sheeps, adds a considerable sum to the right side of the farmers' ledger.

Battle River Valley Offers Finest Kind of Farm Land Available to Land Seekers

Soil of Fertile District Yields Forty Bushels of Wheat to Acre—New District Offers Opportunities For Profitable Farming That is Not Exceeded by Any.

No apology is needed for putting out publicity matter dealing with this section, for every investment that might be made in the Battle River valley because of what is learned through reading the pages of this paper full value will be given.

The whole commercial world is run through buying and selling, and no one finds fault with the man who has a thousand bushels of wheat to sell and advertises it, nor the man who tries to make people buy shares in his enterprises through publicity, so why should a town and its surrounding country hesitate to make public their advantages.

No investment in the world today offers as good security as does first-class farm land. Whether the investor wants to put his property to use or let it lie for advancement in value, land is safe.

There once were two kinds of land investments in western Canada and both have so far proven profitable. First the cheap wild lands that were offered for sale by the big holding companies; second, improved property and wild lands that have become valuable because of their location in settled districts. The day of the cheap wild lands is a thing of the past now. Values have steadily climbed, until land that sold ten years ago for three or four dollars per acre are today held at fifteen to twenty dollars.

Investment in these wild cheap lands was a sure money-maker as long as western Canada was in the earlier stages of the making, but now the opportunity being gone because of better conditions prevailing, buyers must turn to the second class of investment; improved lands and wild lands within the settled areas.

When land that produces forty bushels of wheat per acre that averages in price one dollar per bushel is offered for sale at twenty to thirty dollars on reasonable terms the investment ceases to be a speculation. This kind of security is all-ridge.

The value of all industrial stocks and bonds rest on their earning capacity and this is also true of land, only the land carries with it the added value of permanency and home-making possibilities.

Land in the Alliance-Camrose district, that is well cultivated and farmed with intelligence, will bring returns on the price asked far beyond any average scheme offered for investment. Businessmen of the district know this and are willing to put their money into advertisements that will let the world know the facts. They want more people because their country can never be what it should until there is a family on at least every half section in the district. In most cases a quarter section will provide well for a family.

In any case an investment in the

district at prices offered now is as safe and liable to be as profitable as human forethought can arrange for. Information about the country will gladly be furnished by the secretary of the Board of Trade of any town along the Camrose-Alliance branch.

HEISLER HAS FINE OUTLOOK FOR DAIRYING

Money For Milk Adds Much To the Receipts From Grain Growing

Heisler is another one of the new towns and shipping points along the new railroad down the Battle River Valley. It could be appropriately be spelled Heisler and get away with it, too. Heisler is a pretty little town of a farming section that will soon be known far and wide for its productivity. The day's scribe was there twenty-seven cans of cream were put on the train. This happens three times per week, and represents weekly checks to the amount of fully five hundred dollars for the farmers of the section.

There are three elevators at Heisler, and another now building; two general stores, and many other smaller business houses. The valley surrounding the town is a rich wheat belt and the farmers believe in mixed farming.

From this station grain began to move along before the line was finished to Alliance, and it is not an uncommon thing now to see twenty to thirty cars awaiting their turn to be filled from the big elevators.

The settlers here are mostly of the pioneer type and came to this point when Wetaskiwin was the nearest railroad point. They have prospered, and today the district is represented by many splendid farm homes. The farms are improved along modern lines, and the stock running in the pastures are well bred and proving profitable. The country around Heisler is well watered, and the land is a rich black loam with a clay subsoil. Poplar groves make the whole country park-like, and intensify the beauty of the landscape. There abundance of open land for around Heisler and the people are to see newcomers arrive to make country their home. The price of land from fifteen to forty dollars per

Prosperity

Some of our patrons draw as much as \$200 apiece per month for their cream

Ten years of giving 'best results' to farmers has brought us thousands of satisfied patrons. More are flocking to us all the time.

It pays to sell cream to the "Old Reliable Firm,"

Edmonton City Dairy

— Limited —

Edmonton - Alberta

Do You Know That The Battle River Valley Is The Best Mixed Farming Proposition In Western Canada?

The valley is sixty miles long by thirty miles wide. It is served by the newly built Camrose-Alliance branch of the C.N.R., which runs directly down the centre of the district. Forestburg, Alliance, Galahad, Heisler, Camperlton, Rossiland, Kelsey, Tank, and Kiron are live settlements and towns along the line.

Four elevator companies maintain seventeen elevators along the line. From Forestburg alone a million dollars' worth of wheat has been shipped this season.

Forty per cent. of this great district is yet raw land, awaiting the home-maker, and is on the market on the best terms ever offered the public.

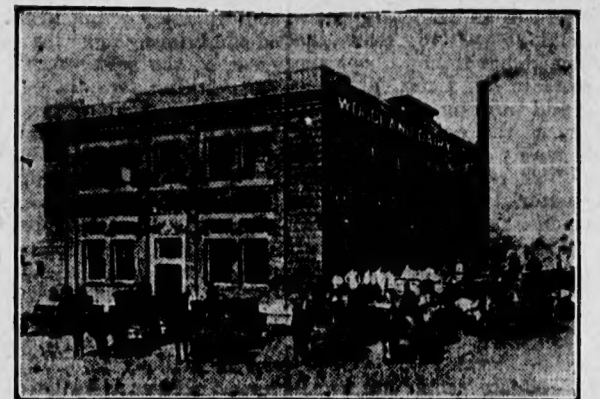

We can sell you on twenty years' time any amount of clear land, ready for the plow. We can sell you improved sections, half sections or quarters, on terms to suit. Our main office is at Forestburg, and we are ready to show you over the country.

Remember, our lands are in close proximity to schools, churches and trading points. Elevators await your grain, and a splendid shipping market awaits the products of mixed farming. We have a number of excellent stock propositions, and will take pleasure in showing them to you. Come to the Great Battle River Valley and prosper. Get your farm before land values go up.

AUSHERMAN BROS. & MILLER

FORESTBURG - ALTA.

Get Tickets Over the Camrose-Alliance Branch, C.N.R.

We Render Service To Cream Shippers All Over Central and Northern Alberta

But four of our 76 Branches are located on the Camrose-Alliance line. We probably ship more cream out of this section than any other dairy company.

Our fair dealings in this section has won for us the confidence of its cream shippers,—the same confidence as we most certainly enjoy throughout all territory tributary to us.

If you are not one of our many customers, may we add your name to our lists. For your cream, we will give you Fair Prices, Reliable Tests and Payment within 48 hours after your shipment is received.

ALLIANCE—The Centre of Prosperity Calls You

HOG RAISING IS INCREASING FARM WEALTH

Many Cars of Hogs Being Shipped Out of the Battle River Valley

Hogs seem to find a natural home in the Battle River District. Like most of the districts of the central part of Alberta, disease is practically unknown to the breeders of swine. As a by-product of most of the farms the hog is a wonder, especially where grain raising predominates, as it does in this new country. Many the farmer of this valley owes his present independence to the homely old hog that at times seemed to be in everybody's way, getting into everything he could reach, breaking into all manner of places he was not wanted and making himself a nuisance in general.

With the coming of the railroad last year and the beginning of the cream industry the hog had advanced immensely in the estimation of the farmer. The slim milk is never wanted where there are hogs, as on it he thrives as on scarcely any other food. It makes strong, healthy pigs and gives them an appetite for roughage.

Today hardly a train leaves the country along the Battle without from one to five carloads of hogs and at the present price paid it goes without saying that the farmer who pays a little attention to his hogs needs not be a borrower at the bank. There seems to be no straighter road to independence than to come to the Battle River Valley and raise hogs.

SOME FARMERS WHO HAVE MADE GOOD IN THE ALLIANCE DISTRICT

A few authentic cases of men who have made good in the Battle River Valley will be of interest to those who are looking for examples of prosperity in the country they may choose for their new home.

The following are only a few of these. Many more might be written about and in many cases more interesting facts could be uncovered. Paul Paulson, an eleven year pioneer of the Alliance district, came from Ontario and settled five miles east of where Alliance now stands. Mr. Paulson had only a little capital when he arrived in the country, but he knew how to farm and set to work in earnest to make his future home. For years he hauled wheat twenty miles to the nearest shipping point, but today it is different.

Mr. Paulson now owns eleven quarter sections, has seventy-five head of cattle and a lot of other stock. This year he has sown six hundred acres of wheat and it is now from 15 to 18 inches high. Last year he sold seventy-five hundred bushels of wheat at two dollars per bushel. His crop averaged thirty-five bushels. He states he has never seen a failure in his district.

Levi Cramer also came to Alliance eleven years ago. He homesteaded eight miles southeast of town and did his first breaking with a bull-team. His was truly the life of the pioneer and he hauled his crops thirty miles for shipment. Today he owns ten quarters and has this year a crop of nine hundred acres. Cramer has sixty head of cattle and mixes his farming well. He tells of the days when fully half of his time was spent on the trail between his place and the shipping station. It was hard work to get along then. Prices were low for grain and high for what one

wanted from the store. Stock was a drug on the market and one could farm only as much as you had horse power to haul away. J. D. Hall is an old North Dakota man, with eleven years to his credit on a farm eleven miles northeast of Alliance. His distance for hauling crops to market was sixteen miles, and like his friend Cramer, remembers the days on the trail with anything but pleasant memories.

ABUNDANCE OF FUEL AVAILABLE AT BATTLE RIVER

Easily Mined Coal Available in Big Quantities—Will Mean Improvements

Settlers in the country along the Alliance-Camrose C.N.R. line are forever assured of an abundant fuel supply in the immense coal deposits lying along the north side of the Battle river, south of Forestburg and Alliance. The coal is a good quality of lignite and is easily mined, as it in many places crops out along the breaks of the river slopes.

At present the farmers haul from the mines for a distance up to twenty miles, but it is given out by the railroad company that as soon as building material can again be secured a branch line will be built into the fields. They would then be opened up on a much more extensive scale, and the exportation of coal would add another item to the country's productiveness.

This handy fuel supply means a decided advantage to a farming section, and the attention of intending settlers in western Canada is called to this claim of the Battle River Valley. It is now generally recognized that as soon as the war is over there will be a decided step upward in the living methods of the western farmer. Whole districts will be furnished with electric light and power, the washing machines that now use up precious woman power will be run by the switch of a lever, cream separators, sewing machines, feed grinders, must buzz from the power that comes over the wires, before the farmers who supply the world with its food come into their own. The district around the big coal fields on the Battle river will be easily reached from a central power station at the point of fuel supply. When the country is ready for this development it will not need to wait for outside capital. The farmers have the money, the brains and the co-operative spirit to put the enterprise through. They are democratic enough to want to control this big undertaking, and will do so.

The coal fields of the Battle River Valley should be one of the main factors in bringing the living conditions up to the standard the people are entitled to.

PAYS \$8,750 FOR PUREBREDS

J. J. Bell of Islay paid \$8,750 for thirty head of cattle at Boana, Iowa, and then found some difficulty in getting them across the border. He is now endeavoring to make arrangements with the veterinary authorities of the United States government, and hopes to get back with his stock in a short time. The cattle are purebred Aberdeen Angus, and he thought that nothing more than a state veterinary certificate would be necessary to secure rights to cross into Canada, but when he came to get them over he found it would be necessary to bring a federal veterinary from Washington to inspect the shipment. Mr. Bell will bring the cattle to his farm at Islay when he finally succeeds in passing them at the border.—Vermilion Standard.

SETTLER LAND SALES
Bert Blair has put through the following land deals this week: The Weller Section (2-29-26), just west of town has been sold for the sum of \$12,000, the following being the purchasers: Mr. Judd takes the North West quarter, and Mr. Tench the North East and Mr. Potter the South half. This is a splendid section and is a good deal for the turn in the road two miles west of town on the way to Erskine. Harry Fuller has also bought the south quarter of 2-29-26 from Jack Rutledge for \$4,000.—Stettler Independent.

FINE SHOOTING MAY BE FOUND NEAR ALLIANCE

Sportmen Say That Stubble Shooting Near Alliance is of Finest Kind

There is scarcely a middle-aged man of today but who has fond memories of the time when he, as a boy, took down the old muzzle-loading shot-gun and with infinite pains, measured the shot and powder that went to make up a load that would scatter with proper degree for getting as many of a flock of ducks as was consistent with the awful kick following the discharge. Those hunting trips after the day's work was done, or maybe before daylight in the morning, were in many cases the one bright spot in the life of a country boy of forty years ago. Boys and men of today are a good deal like the boys and men of the earlier days, and like to get away from things for a while and put their wits against the wild things with their swift wings. Those with sporting instincts who can get away at the right season of the year and journey down to the Battle River Valley will find in one of the best duck hunting countries in Alberta.

Along the stream and around the lakes the birds make their breeding ground, and here each spring thousands of young are raised. When grown they find the ripening grain awaiting them, and are loath to leave even though shot at often. The stubble fields become the finest of hunting grounds during the mornings and evenings. At times the air is literally alive with the big mallards. It is fine sport and the farmer-men down there put up "no trespass" signs to interfere with the hunter's pleasure. Instead, they welcome the visitor and willingly conduct one to the choice spots, furnishing out sheaves for blinds.

SUBSTANTIAL INCOMES
What did your best cow earn for you last year? A seven-year-old grade in a herd near Oxford Mills, Ont., that milked from March 30, 1916, to January 30, 1917, gave 363.9 pounds fat, which at 40 cents per pound equals the substantial sum of \$145.76. Perhaps you got more.

Fortunately the owner of this herd is keeping records of each cow that she owns and has the satisfaction of knowing that six out of his fifteen cows earned over \$150 each.

With milk weighed every tenth day and a composite sample tested once a month, the actual yield of each cow for her full period of lactation can be found with but little trouble.

Milk and feed record forms are free for outside use to the Dairy Division, Ottawa. A study of records should mean an increase in your cow earning capacity by at least 50 per cent in three years.

Galahad District Is Thriving Community Southeast of Camrose

Country Surrounding Town is Pre-eminently Fitted for Mixed Farming—As Shipping Point Galahad District in Class by Itself, Sending Out All Kinds of Farm Produce.

The Galahad district is a rich farming country, 50 miles south-east of Camrose and 10 miles west of Alliance. There are two grain elevators operating there, and they have been unable to handle the quantity of grain grown hereabouts, but the managing companies have now, besides the elevators, a number of granaries which are filled awaiting cars for shipment.

For mixed farming the Galahad district is pre-eminently fitted, the soil being perfect for grain growing, and the parklike, slightly rolling countryside offering the best of shelter and pasture lands for stock. This district is well settled and splendidly supplied with schools and churches. There is a strong community spirit prevailing among the people and they trade at the new town loyally.

The town affords two general stores, two hardware stores, a lumber yard, pool hall, butcher shop and a number of smaller places of business. An hotel is now under construction, and several neat cottages are nearing completion.

As a shipping point Galahad stands in a class by itself, and there is hardly a product of western Canadian soil but goes out from here on the railroad regularly. Three cream companies bid for the dairy products and nearly every train bears away a number of cars of stock. Like almost any other agricultural point in Alberta the district has numerous examples of men who came to it years ago with scarcely any capital to and after going through all the hardships incidental to homesteading and living a long way from railroad accommodations finally triumphed and today are prosperous and representative men of this district.

This part of the valley draining into the Battle River is well watered and for stock. There are many beautiful wild hay meadows and abundance of

PHONE AND AUTOS SAVE BARN

On Saturday morning the wind blew some sparks from a smudge into the straw round the cattle shed on Jas. Fenton's farm and set it ablaze. There were several colts and young cattle in the shed at the time, but with considerable trouble they were all taken out and saved. As soon as the fire was discovered, Mr. Fenton phoned to Irma for help and three autos filled with volunteers were soon on the way to the fire. When they arrived the corner of the barn had caught fire, however, with plenty of help this was soon extinguished and the barn saved.—Irma Times.

URGES USE OF NAME "BATTLE RIVER VALLEY"

(Alliance Times.)

"The Battle River Valley," a name suggested recently by a visitor here, should be used by every resident along the Camrose-Alliance branch of the C.N.R. At present there is no way for strangers in the west to ascertain the location of Alliance, Forestburg, Hiesler, or any other of the many towns along the line but to search the indefinite maps furnished by the railway companies. On many of these maps our new towns are not mentioned.

The Battle River valley suggests to the mind quickly a certain location in the very heart of Alberta. If this name is used by our people when writing and speaking of our country it will be but a short time before the name, location, its productiveness, and home-making advantages will be synonymous with the word Opportunity. Every town and village located in the far northern agricultural belt has an invaluable asset in the advertising value of location in the Peace River country. Let us grasp the opportunity which is ours in the district, from Camrose to beyond Alliance where the river bends north, and reap the benefit of the advertising advantage of being easily found. "Battle River Valley" sounds good to the Times.

Modify Rules Regarding Parcels To Prisoners

Ottawa, July 3.—Regulations in force up to the present governing the sending of parcels to prisoners of war, are now modified insofar as prisoners of war interned in Switzerland are concerned, to comply with the new regulations introduced by the Swiss authorities restricting in part the privilege of free postage and exemption from customs duty hitherto accorded to parcels addressed to prisoners of war, and civilians interned in Switzerland.

DE LURY & REMICK

Farm Lands - Ranch Lands

We invite you to visit the ALLIANCE and BULWARK DISTRICTS before buying land elsewhere. It will pay you.

We have lands listed with us to the amount of over 50,000 acres. The price of these lands range from \$15.00 to \$35.00 per acre. The terms are such that you can handle them.

Come to Alliance and look these lands over with us.

WRITE US FOR PARTICULARS.

HOW would you like to buy a quarter section of land, anywhere from \$20.00 to \$30.00 per acre in a district where you can raise forty bushels of No. 1 wheat to the acre as an average crop, not forgetting that this wheat has sold for two years, and probably will for at least two years more, at around \$2.00 per bushels? In other words: You can pay for three or four acres of the land in one year from the proceeds of one of the acres.

There are parcels of land available from one quarter to four sections in this district. Always plenty of moisture.

If you are interested in farming, and also interested in making money at farming, write to us and we will give you particulars of the kind of a proposition that you may be interested in. We would prefer to have you come to see us at once though, so that we may show you, and so that you may get evidence of the truth of our statements from farmers of the district.

FORESTBURG—Thriving Town of Great Promise

Forestburg Centre of Thriving Farming Community Which Will Assure It a Lasting Prosperity

Town Lies About 30 Miles South-east of Camrose—Already it Has Four Elevators and an Annex—Country Surrounding Town is Well Settled With Progressive Farmers, Who Are Engaged in All Kinds of Mixed Farming.

Forestburg is only a youngster of a little over a year of age, but it already occupies a place on the map, and doesn't propose to be removed. Traveling men say it is the best town of its size in western Canada.

Forestburg is close to thirty miles south-east of Camrose. It boasts of four elevators and an annex. Besides these there are a lot of barns, sheds and houses that have been used to store the grain that came in for shipment after the elevators were all filled.

There are three creamery companies who keep representatives at the town for buying cream. There are two lumber companies with good stocks operating there. The Merchants Bank has a branch at Forestburg and there are three first-class general stores, a couple of hardware stores and an implement house. A lively stable which also operates autos, a large pool hall and a good little hotel with a number of smaller business houses make up its business centre.

There are a number of neat bungalows and cottages where the business men of the town make their homes.

and a couple of wide-awake real estate firms, whose names you will see in their advertisements.

The country direct around Forestburg is what puts the town on the map. It is well settled with progressive men, and they are all believers in their section. They raise all kinds of grain, milk all kinds of cows, ship all kinds of hogs and cattle, and call regularly at the post office for their cream checks. They are never in a hurry, and if you talk to a Forestburg farmer two minutes he will invite you out to his place to stay a week and shoot ducks. His only trouble is wondering whether there will be enough cars to haul the next year's crop.

More than a quarter of a million dollars has been paid to the farmers for grain shipped from elevators here during the past season, and several thousand dollars worth yet to follow is evidence enough that Forestburg is in the heart of one of the best farming districts in the province.

Weekly shipments of a good carload of hogs have continued all the season and one of the finest of the whole season was billed out on June 28th, by

Samuel Morrow the local buyer here.

Coal of the very best quality, and the supply unlimited is mined only eight miles from this place by the Bish brothers, who are making extensive improvements to their mining and loading facilities. Farmers have the opportunity of purchasing all they can haul from these mines at all seasons of the year. During the winter months and while the roads are good many farmers haul away loads after loads of seven tons each and make good money delivering to all parts of the district. The sale price at the mines is very reasonable and farmers have an opportunity of obtaining an unlimited supply of good cheap fuel. Arrangements are also being made to ship it away by railroad from the station.

Pure bred cattle is one of the more important subjects to be mentioned. The high prices paid for good beef the past season and larger amount of weight on the better bred cattle, with the same amount of feed and care given to the ordinary mixed breeds have caused a grand awakening of farmers to the fact that there is real profit in the better breeds. Among the most profitable beef cattle are the shorthorn, the Hereford and Angus. A large number of pure-bred bulls have been sold throughout this district the past spring which will add hundreds and thousands of dollars to the beef production in this future.

Shipments of cattle like the hog shipments have been continued all the season. A very nice bunch were shipped the past week at a very good price to the shippers.

Paris, July 3.—A battalion of American troops arrived in Paris this morning to parade on July 4.—The Americans were greeted by wildly enthusiastic crowds which packed the streets through which they marched to Neuilly barracks, where they are quartered.

Canada's Roll of Honor

Ottawa, July 3.—There are 100 names in the casualty list issued at noon today:

INFANTRY.

GREETING FROM U.S.

Ottawa, July 3.—President Woodrow Wilson of the United States, has tendered his congratulations to Canada on her fiftieth anniversary of confederation. The message is as follows:

"At this time, when the ties between the Canadian people and my countrymen are made even stronger by association in the common cause of human freedom, I offer cordial congratulations on this half century anniversary of the founding of the Dominion of Canada."

MR. FARMER:

Cockshutt Implements have for years been the stand-by of the farmer.

Our Hay Machinery and Binders are now in stock. My practical experience is at your disposal in helping you to put these machines to work. Our 5-foot-cut Frost and Wood mower is the best.

The Champion self-dump rake works smooth. Our Cross and Wood binder is the lightest running binder on the market.

The Magnet Separator in the home insures a larger monthly cream check.

I am investigating gasoline tractors now, and will be able to furnish the best for next season.

A. SATHER, Forestburg

Cole & Cole

Only one year ago the C.N.R. ran a line down the centre of the Great Battle River Valley. Since then seventeen elevators have been erected along that line. From one point, Forestburg, a million dollars worth has been shipped, but wheat is still flowing through the elevators.

This immense valley is at present only about half settled with a still smaller quantity of its lands cultivated. You, Mr. Home-maker, are wanted to help swell the already large output of grain, stock, cream, poultry, eggs and farm produce. We want you to come where the schools, churches and trading points are already established.

For your comfort we have splendid coal fields close by. The land is the very richest black loam, overlaying clay subsoil. We have never had a failure and our farmers who have followed the mixed farming process have prospered beyond belief.

We have for sale on terms up to twenty years, any amount you may want. We can place a dozen families at once on land ready for the plow. We have splendid stock propositions. Our prices range from ten to twenty-five dollars per acre for improved farms.

Come to the richest valley in Western Canada. See us, and let us show you our bargains.

"ONE GRADE ONLY AND THAT THE BEST"

This has been our motto since starting in business in Forestburg, and we find that our trade demands that we live up to it in every line we handle.

As the country grows older there is ever an increasing demand for highest quality goods in everything that is manufactured, and especially things to eat and things to wear.

We are putting forth every effort to meet this trade.

OUR GROCERIES are fresh and clean.

OUR DRY GOODS are new and up-to-date patterns, and of the highest quality.

OUR BOOTS AND SHOES are the best we can procure in Canada, and we ask very moderate prices for everything we have to sell.

HOREY ENTRANT IN AUTO RACES AT EXHIBITION

Holder Of Seven Records—Dirt Track Champion Of The World.

Fred Horey, a young French-Canadian, who last year stepped into the shoes of the late Bob Burman and Barney Oldfield as dirt track champion of the world, is one of the latest entrants in the auto races which will be held the last two days of the Edmonton exhibition.

His establishing of seven new world records paved the way to the title, which was awarded to him by the contest board of the International Motor Contest association during the past winter.

Even if Horey wishes, he would not be able to rest upon his honors, like some champions do, as he is being hotly pursued by George "Texas" Clark, Art Klein, the speedway driver; Ben Hroux, a foreign pilot; Dave Kostala, of Detroit, and others. The challengers are the most formidable aggregation of drivers that ever chased a champion around the tracks of North America.

Horey has no intention of sitting round and watching another demon grab off his records. And this year he is not only going to defend every mark he possesses, but is making a strenuous effort to increase his holdings by capturing some new official points. During the winter the champion spent every spare moment on his title record-holding Italian Fiat and early reports that it was faster than ever, proved very true and accurate.

The champion was the winner of a 5,000 match race at Columbus, Ohio, in May, when he defeated a field of starters, which included "Wild Bill" Endicott, Clark and others. Horey joined the "hard luck" club at Detroit Decoration Day. Just when it appeared as if he had the race won and a new world record established, his machine caught fire on the back stretch. His mechanic, Bob Colombo, managed to save the machine with the aid of Pyrene.

Horey is one of the latest entrants in the auto races which will be held at the Edmonton exhibition, the last two days of the 1917 exposition.

REHEARSING OF M'GRAW CASE NEXT FRIDAY

President Tener Has Notified Baseball Writers' Assn To Have Witnesses Present.

NEW YORK, July 3.—President John E. Tener of the National League has notified the chairman of the local chapter of the Baseball Writers' Association that there will be a rehearsing of the McGraw case on Friday, July 6. The meeting will be attended by all members of the board of directors of the National League and the Writers' Association has been notified to have present all those necessary in the capacity of witnesses.

To Sift the Case
Every league club president, who is also a member of the board of directors, has announced his intention of being present, and their attendance will in some cases necessitate traveling several thousand miles. According to the report it is the intention of the directors to sift the case to the bottom.

Manager McGraw will be confronted in open session by the writers whose alleged statements he repudiated at the last meeting of the league.

INTERMEDIATES EXECUTIVE WILL MEET WEDNESDAY

Capitals Defeated Tigers Tuesday Night By Score Of Sixteen To Four.

An executive meeting of the Intermediate League will be held on Wednesday night at Diamond Park to complete the organization of the league. They are expected to decide on the nature of the trophy to be played for.

The Capitals defeated the Tigers at Diamond Park on Tuesday night by a score of 16 to 4. The batteries were, Capitals, Thompson and McIntosh; Tigers, Davies and McClure. The game was called in the fifth inning on account of darkness.

On Wednesday night the Estates will meet the Great West Garment workers.

STRINGENCIES OF WAR CAUSE A SUSPENSION

Announcement Of Closing Down Of Northern League Made Tuesday.

FARGO, N. D., July 3.—The Northern Baseball League, which was reorganized this spring with Fargo, Moorhead, Minot, Winnipeg and Warren as members, has been forced to suspend, owing to financial stress, it was announced in baseball circles here today.

Most of the Fargo players will go with independent teams in this state, while Manager Denny Sullivan, Catcher Bachant, a pitcher and an outfielder will join the Duluth team of the head of the lakes-leagues, semi-professional league. These men have been made a proposition and will leave Thursday for Duluth.

Third race, one mile—Isabelle H., won; Captain B., second; Old Reliable, third. Time, 1:42 3-5.
Fourth race, 5 furlongs—Miss Brywn, won; Tom, second; Hasty Mabel, third. Time, 1:02 2-5.
Fifth race, mile and eighth—Galley Head, won; Rex Galey, second; Pepper Sauce, third. Time, 1:57 3-5.
Sixth race, 6 furlongs—Miss Gayle, won; Zindel, second; Perpetual, third. Time, 1:15.
Seventh race, mile and 70 yards—Gartley, won; Phil Ungar, second; Harry Lauder, third. Time, 1:47 3-5.

Sporting Facts and Fancies

Something has happened to old Walter Johnson. He's been sort of wabbly lately. His worst exhibition in many days came recently when, in a game against the Tigers, he gave eight bases on balls, hit two batsmen and was generally wild. You've got to do better than that, Walter, or the fans won't like it.

Hard work is telling on Cicotte, star moundsman of the White Sox. He's doing the major part of the twirling for his team and as a result he has lost fifteen pounds. If it keeps up, there won't be anything left of him.

Well, the umpires have certainly won out in the National league, at any rate. It will very likely go hard with any of the players in that outfit who take the bit into their mouths, besides words that aren't nice, and try to run away. That is, everything will run along serenely until the next time. Human nature is human nature, and all the rules in the world can't make a man glad when he feels like being mad.

Some great long distance artillery work is being done these days by Harry Hooper and everybody concedes that he's the top notcher among the right fielders of the American league. He can throw a ball a longer distance and more accurately than any other player in the game.

The Yankee fans are willing any day to pass a resolution nominating Hendry as their next candidate for the presidency or any other job he may select. Just ask them and you'll see. The reason is that Hendry is doing some great work at the bat these days and he's doing it when it counts, too.

Everybody stand up while the band plays "Hail, the conquering hero comes" for Ivan Olson of the Robins. He certainly has come through with the goods for Robbin in every department of the game. His hitting is good, his fielding is excellent and he's as fast as a race horse. Altogether he is one of the most valuable players the Robins have got and has made himself indispensable after O'Mara failed last year and after Fabrice floundered this spring.

Did you ever hear the story of the secret fight between Jim Jeffries and Sam Langford back in 1910, a few days before the former heavyweight champion met Jack Johnson and lost his title. The story went the rounds a few years ago and was to the effect that Jeffries' trainers, in order to see just what the prospects were for their protegee, arranged a bout with Sam Langford. Only a few chosen friends were present during the encounter and what they saw didn't give them much encouragement for the impending battle with Jack Johnson. Langford was altogether too much for Jeffries, who displayed but little of his old form. In the third round Langford twice floored him and soon after the fourth round got under way Jeffries went down for the count. A great many people who later heard the story believed that it was this beating at the hands of Langford that put Jeffries out of the running for his bout with Johnson which took place a few days later. Jim Barry, the Chicago heavyweight, swore that Joe Woodman, Langford's manager, told him the story as being absolutely true. The account was kept secret for a long time and when it was made public a great many people considered it a "pipe dream." But anyway, it aroused a great deal of talk among fight fans and is interesting, whether it is true or not.

Today In Pugilistic Annals.

1882—John L. Sullivan knocked out Jimmy Elliott in three rounds at New York.
1898—Kid McCoy knocked out Nick Burmy in four rounds at Troy.
1907—Tommy Burns knocked out Bill Squires in one round at Colma, Cal.
1907—Freddie Weeks knocked out Grover Hayes in three rounds at Cripple Creek, Col.
1908—Baz Nelson knocked out Joe Gans in seventeen rounds at San Francisco.
1908—Packey McFarland and Freddie Welsh fought a 25-round draw at Los Angeles.
1908—Terry Mustain defeated Jack Twin Sullivan in 13 rounds at Goldfield, Nev.
1910—Johnny Kilbane defeated Patsy Brannigan in twelve rounds at Akron, Ohio.
1910—Jack Johnson knocked out Jim Jeffries, winning heavyweight title, in fifteen rounds at New Bedford, Mass.
1911—Ad Wolgast knocked out Owen Moran in thirteen rounds at Frisco.
1911—Joe Rivers defeated Joe Coster in twelve rounds at Los Angeles.
1911—Young Togo, Japanese, and Harry Forbes fought fifteen round draw at McAlester.
1911—Knockout Brown outpointed Tommy Ginty in six rounds at Scranton, Pa.

Just Married.

BOSTON, July 3.—Boston and Philadelphia split a double header here today. Philadelphia won the first game, 3 to 0, and Boston took the second, 6 to 1. In the first contest Myers outpitched Ruth. Leonard, whose marriage to Miss Sibel Mauditt, of Los Angeles, last Thursday, became known today, pitched the second game for Boston and held the Athletics to five hits.

BUREAUCRATIC REGIME

COPENHAGEN, July 3.—Theodore Wolff, editor in chief of the Berliner Tageblatt, writing in his paper, characterizes the German system of government as "a conservative bureaucratic regime where voice in affairs and where decisions of war and peace are taken in secret without any co-operative representatives of the people."

FORESTRY UNIT PAID COMPLIMENT BY LLOYD GEORGE

Shows How United Kingdom Will
Save 6,000,000 Tons of
Shipping

Dundee, Scotland, July 2 (via Reuter's Ottawa Agency).—Prior to leaving this city yesterday morning, Premier Lloyd George visited the timber-cutting operations which are now of such great importance to the nation in the prosecution of the war. Mr. Lloyd-George inspected the Canadian Forestry company, 250 strong. He said:

"It gives me great pleasure to have the opportunity of meeting this company of our gallant foremen from Canada. I can assure you that you are doing a work of the greatest national importance."

"I remember when Sir Robert Borden was at the first of these conferences, he told us how you could help. I will tell you what it means. We are going to save six million tons of shipping in timber, ore and food by utilizing our resources. That is a factor of the first importance in countering the efforts of the submarines. That's where you can specially help."

"You all know this is the great anniversary day in the history of Canada, one of the brilliant members of the British Empire. Her sons have fought with magnificent courage in this great war. Their deeds of valor at Vimy Ridge and on many another battlefield are now a matter of history. They have shown Canada's might and the British Empire's strength. Together they have shown there is more in the might and muster of the British Empire than ever our enemies reckoned."

WORK RESUMED IN COAL MINES

Output Will be Small Until More
Men Can Be
Secured

Calgary, July 3.—According to reports reaching Calgary this morning, work was resumed this morning in all the coal mines of District 18, comprising Alberta and Eastern British Columbia. The conditions which the operators were directed to observe by the commissioner, W. H. Armstrong, evidently proved acceptable to the men who passed on them by referendum vote Saturday. It is stated that many of the mines are having great difficulty in obtaining enough men, so many of them having taken other employment during the long strike.

The output will therefore probably be very restricted for some weeks to come.

Commissioner Armstrong stated today that he understood that all the mines were again operating, and he would leave for Ottawa to take the matter up with the Minister of Labor, after which he would return here to arrange the details that had been left over.

He said that he was very pleased with the way things had turned out and was glad that both operators and miners had been so sensible, meeting his suggestions in the way they did.

According to advices received from Fernie all the mines in the Coal Creek district, which takes in Fernie and Michel, had opened this morning with the exception of No. 1 south. The wire also stated that the men had returned in full force in all the mines of the district and that the coal production there would soon be normal again.

QUEBEC QUOTA IS 25,000 MEN IN DRAFT ARMY

Hon. Albert Sevigny Shows How
This Number Will Be
Apportioned

Quebec, July 3.—Hon. Albert Sevigny, minister of inland revenue, will again be a candidate in Dorchester county. He says he will be elected. In an interview here he forecasted that the vote in the house on the conscription bill will be taken by this weekend and passed by a huge majority.

Speaking of statements that Quebec province could easily raise 25,000 men through conscription, Mr. Sevigny gave figures on the men each city, town and parish should be called upon to provide.

"Montreal," said he, "with its population of 600,000, should easily contribute 10,000; Quebec, with its population of 100,000, should give 1,000 men. In the province of Quebec we have 1,200 municipalities and if each sent only 12 men we should have a force of 14,400 from the rural districts. We could give 23,000 men, and to give the complement of 25,000 men, we could call on the towns of Sherbrooke, Hull, Three Rivers, St. Hyacinthe, Lévis, Valleyfield and Fraserville."

CANADA TO HELP U.S. IN CAPTURE OF LAKE BANDITS

Conspiracy to Destroy or Hinder
Inland Shipping is Being
Run Down

Washington, July 3.—Secret investigation by government agents has disclosed the existence of a great conspiracy to destroy or hinder shipping on the Great Lakes and thereby delay organization of the war armies of the United States and check the flow of food and munitions material from the western states to the Atlantic coast. No conspirators have been captured, and the identity of none has been made public, but it was learned today that the state, navy and justice departments are co-operating to bring the offenders to punishment, and that the Canadian government probably will be called upon to help.

FOOD RIOTERS JAILED.

Copenhagen, July 3.—Residents of Stettin, Germany, appeared before the military court Saturday, to answer for participation in the food riots on June 19th and 20th. Ring-leaders were sentenced to eighteen months and a year's imprisonment, others receiving lighter or suspended sentences.

CUSTOMS RECEIPTS SHOW BIG INCREASE.

Ottawa, July 3.—Customs returns for the first three months of the fiscal year, ended with June 30, amounted to \$46,686,202, an increase of slightly over \$11,000,000 as compared with the same period last year. For the month of June alone the amount collected was \$15,386,678, an increase of \$3,536,226 over June, 1916.
